Independent auditors' report

To the shareholders of OJSC Rosinter Restaurants Holding

We have audited the accompanying consolidated financial statements of OJSC Rosinter Restaurants Holding and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at December 31, 2009 and the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at December 31, 2009, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Emphasis of matter

As described in Note 1, the accompanying consolidated financial statements, presented in Russian Rubles, were issued by the Group in addition to the consolidated financial statements presented in US dollars. We have audited and reported separately on the consolidated financial statements presented in US Dollars and issued our audit report dated May 17, 2010.

May 17, 2010

1. Corporate Information

OJSC Rosinter Restaurants Holding (the "Company") was registered as a Russian open joint stock company on May 24, 2004. The registered and headquarter address of the Company is at 7 Dushinskaya str., Moscow, 111024, Russia. As of December 31, 2009, the Company's controlling shareholder was RIG Restaurants Limited, a limited liability company (the "Parent") (formerly known as Rostik Restaurants Limited) incorporated under the laws of Cyprus. RIG Restaurants Limited is under the ultimate control of Mr. Rostislav Ordovsky-Tanaevsky Blanco.

OJSC Rosinter Restaurants Holding and its subsidiaries (the "Group") is the leading casual dining operator in Russia and CIS both by number of restaurants and by revenue. The Group's business is focused on serving the most popular cuisines in Russia: Italian, Japanese, American and local Russian cuisine.

The Group derives approximately 90% of its revenues from restaurant business sales:

- most of the Group's restaurants operate under its core proprietary trademarks: "IL Patio pizza pasta grill", "Planet Sushi", "American Bar and Grill", "Café Des Artistes", "Pechki-Lavochki" and "1-2-3 Café".
- other restaurants operate under licensed trademarks: "T.G.I. Friday's", "Sibirskaya Korona" and "Benihana".

Other revenue of the Group represents revenue from the network of independent franchisees in Moscow and throughout Russia and the CIS, sublease and other services, revenues from canteens and from sales of semi-finished products.

The Group's principal business activities are concentrated within the Russian Federation, but it also operates in Ukraine, Belarus, Kazakhstan, Latvia, Czech Republic, Poland and Hungary. The Group also has exclusive development rights and/or registered trademarks in Azerbaijan, Kyrgyzstan, Uzbekistan, Moldova, Lithuania, Estonia, Austria, Slovenia, Slovakia, Romania, Croatia, Macedonia, Bulgaria, Serbia and Montenegro.

The Group was formed during 2004 to 2006 through a reorganization of entities under common control of the Parent, in which the shares of the subsidiaries were contributed into the share capital of the Company.

On June 2007, the Parent sold 3,125,000 ordinary shares of the Company during the Initial Public Offering for a cash consideration of 100,000 thousand US dollars (RUR 2,590,403 at exchange rate at June 1, 2007). At the same time, the Company issued and sold 2,030,457 new shares to the Parent at a price of RUR 766.99. The nominal price of the shares issued was RUR 169.70 ($6.55 at the transaction date exchange rate). The shares of the Company sold by the Parent were admitted for trading on the Russian Trading System Stock Exchange and afterwards on MICEX.

The consolidated financial statements, presented in Russian Roubles, were authorised for issue in accordance with a resolution of the Board of Directors on May 14, 2010, in addition to the consolidated financial statements presented in US dollars.

The Group derives revenue in the territory of Russia and other CIS countries, Baltic States and other European countries. For the years ended December 31, 2009, 2008 and 2007, the revenues from the Russian market were approximately 83%, 81% and 79% of total revenues, respectively. The second largest market was Kazakhstan with 5% of total revenues for 2009 and 2008 and 6% of total revenues for 2007.

As of December 31, 2009, 2008 and 2007 the Group employed approximately 8,050 people, 8,200 people and 7,700 people respectively.

1. Corporate Information (continued)

The Company had a controlling ownership interest, directly or indirectly, in the following principal subsidiaries:

During 2009, the Group opened 21 new restaurants and closed 29 restaurants. During 2008, the Group opened 100 new restaurants and closed 6 restaurants. During 2007, the Group opened 42 restaurants. In addition, the Group continues to develop a casual dining restaurant business on a franchise agreement basis. The Group opened 25 and closed 4 franchise restaurants in Moscow city, Moscow region and Russian regions in 2009. The Group opened 16 and closed 5 franchise restaurants in Moscow, Russian regions and Baltic countries in 2008. The Group opened 16 restaurants in Moscow city and Moscow region in 2007. As of December 31, 2009, the Group operated 350 restaurants.

2. Going Concern

These consolidated financial statements have been prepared on a going concern basis that contemplates the realization of assets and satisfaction of liabilities and commitments in the normal course of business.

The Group's current liabilities as of December 31, 2009 of RUR 2,847,835 exceeded its current assets by RUR 2,047,492. The net current liability position primarily results from bank loans in the amount of RUR 1,050,060, bonds payable in the total amount of RUR 118,859 with a maturity date of November 26, 2010 and trade and other payables.

Group management believes that it is appropriate to prepare the financial statements on a going concern basis due to the following:

- The business strategy of the Group allows generating significant operating cash flows. In 2009, 2008 and 2007 the Group generated RUR 822,679, RUR 498,694 and RUR 515,425 of net cash from operating activities, respectively. The Group is expecting for 2010 positive operating cash flows in the range of prior years' operating cash flows mainly due to the fact that new restaurants opened recently are mostly maturing in 2009 and 2010. An additional positive impact on cash flows comes from all 2009 efficiency initiatives that start showing an impact in 2010.
- On February 17, 2010, the Group announced a secondary offering of the Company's ordinary shares in the amount of up to 4,274,877 shares and the offer price has been set at $10.5 (RUR 316.23 at the exchange rate at February 17, 2010) per share for the total amount of up to RUR 1,351,844. In March 2010, during the first step of the offering the Group received from the Parent a bridge loan for the shares in the amount of RUR 784,224 (refer to Note 31).
- Out of RUR 2,200,143 total debt (at December 31, 2009), the Group has extended Sberbank loans in the amount of RUR 450,000 till February 2011 and has repaid RUR 590,500 to other banks in March and April 2010. At May 14, 2010, the amount of short-term debt was RUR 849,015 which was comparable with the amount of projected cash flows from operating activities for 2010. In 2010, the Group renegotiated all loan agreements and reduced average cost of financing from 16.05% as at December 31, 2009 to 11.92% as at May 14, 2010 (refer to Notes 17, 21).

2. Going Concern (continued)

These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or to amounts and classification of liabilities that might be necessary if such additional resources are not available and the Group is unable to continue as a going concern.

3. Basis of Preparation of Financial Statements

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standard Board ("IASB").

Basis of Preparation

Group companies maintain their accounting records and prepare their statutory financial statements in accordance with the Regulations on Accounting and Reporting of the country in which they are incorporated and registered. Accounting policies and financial reporting procedures in these jurisdictions may differ substantially from those generally accepted under IFRS. Accordingly, the accompanying financial statements, which have been prepared from the Group's statutory based accounting records, reflect adjustments and reclassifications necessary for such financial statements to be presented in accordance with the standards and interpretations prescribed by the IASB.

The consolidated financial statements have been prepared under the historical cost convention except as disclosed in the accounting policies in Note 4.

As discussed above, the Group was formed through the reorganization of entities under common control using the pooling of interests method. Assets and liabilities were recognised using the carrying value of the predecessor companies.

Changes in Accounting Policy and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except that the Group has adopted new/revised standards and interpretations mandatory for financial years beginning on or after January 1, 2009 as described below, and has made the reclassifications in the 2008 and 2007 comparative numbers as followed, respectively:

Extract from Consolidated Income Statement

	2008 As reported	Reclassifications	2008 As reclassified
Revenue *	8,478,279	(117,172)	8,361,107

* The Group changed the presentation of income tax, interest paid and interest received in the consolidated statement of cash flows as compared to the presentation in 2008 and 2007 consolidated financial statements.

The new/revised standards and interpretations mandatory for financial year beginning on or after January 1, 2009 are the following:

- IFRS 2 *Share-based Payment: Vesting Conditions and Cancellations* effective January 1, 2009;
- IFRS 2 *Share-based Payment: Group Cash-settled Share-based Payment Transactions* effective January 1, 2010 (early adopted);
- IFRS 3 *Business Combinations (Revised)* and IAS 27 *Consolidated and Separate Financial Statements (Amended)* effective July 1, 2009 (early adopted) including consequential amendments to IFRS 7, IAS 21, IAS 28, IAS 31 and IAS 39;
- IFRS 7 *Financial Instruments: Disclosures* effective January 1, 2009;
- IFRS 8 *Operating Segments* effective January 1, 2009;
- IAS 1 *Presentation of Financial Statements* effective January 1, 2009;
- IAS 32 *Financial Instruments: Presentation* and IAS 1 *Puttable Financial Instruments and Obligations Arising on Liquidation* effective January 1, 2009;
- IFRIC 9 *Remeasurement of Embedded Derivatives* and IAS 39 *Financial Instruments: Recognition and Measurement* effective for periods ending on or after June 30, 2009;
- IFRIC 16 *Hedges of a Net Investment in a Foreign Operation* effective October 1, 2008;
- IFRIC 18 *Transfers of Assets from Customers* effective July 1, 2009 (early adopted);
- Improvements to IFRSs (April 2009, early adopted).

3. Basis of Preparation of Financial Statements (continued)

Changes in Accounting Policy and Disclosures (continued)

When the adoption of the standard or interpretation is deemed to have an impact on the financial statements or performance of the Group, its impact is described below:

IFRS 2 *Share-based Payment (Revised)*

The IASB issued an amendment to IFRS 2 which clarifies the definition of vesting conditions and prescribes the treatment for an award that is cancelled. The amendment did not have an impact on the financial position or performance of the Group.

The IASB issued an amendment to IFRS 2 that clarified the scope and the accounting for group cash-settled share-based payment transactions. The amendment did not have an impact on the financial position or performance of the Group.

IFRS 3 *Business Combinations (Revised)* and IAS 27 *Consolidated and Separate Financial Statements (Amended)*

The Group adopted the revised IFRS 3 from January 1, 2009. IFRS 3 (Revised) introduces significant changes in the accounting for business combinations occurring after this date. Changes affect the valuation of non-controlling interest, the accounting for transaction costs, the initial recognition and subsequent measurement of a contingent consideration and business combinations achieved in stages. These changes will impact the amount of goodwill recognised, the reported results in the period that an acquisition occurs and future reported results.

IAS 27 (Amended) requires that a change in the ownership interest of a subsidiary (without loss of control) is accounted for as a transaction with owners in their capacity as owners. Therefore, such transactions will no longer give rise to goodwill, nor will it give rise to a gain or loss. Furthermore, the amended standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. The changes by IFRS 3 (Revised) and IAS 27 (Amended) will affect future acquisitions or loss of control of subsidiaries and transactions with non-controlling interests.

The change in accounting policy was applied prospectively and had no impact on earnings/(losses) per share.

IFRS 7 *Financial Instruments: Disclosures*

The amended standard requires additional disclosures about fair value measurement and liquidity risk. Fair value measurements related to items recorded at fair value are to be disclosed by source of inputs using a three level fair value hierarchy, by class, for all financial instruments recognised at fair value. In addition, a reconciliation between the beginning and ending balance for level 3 fair value measurements is now required, as well as significant transfers between levels in the fair value hierarchy. The amendments also clarify the requirements for liquidity risk disclosures with respect to derivative transactions and assets used for liquidity management. The fair value measurement disclosures are presented in Note 30. The liquidity risk disclosures are not significantly impacted by the amendments and are presented in Note 30.

3. Basis of Preparation of Financial Statements (continued)

Changes in Accounting Policy and Disclosures (continued)

IFRS 8 *Operating Segments*

IFRS 8 replaced IAS 14 *Segment Reporting* upon its effective date. This standard requires disclosure of information about the Group's operating segments. All operating segments of the Group are identified on the basis of internal reports that are regularly reviewed by the Group's top management and represent Moscow business unit, Regional business unit and European business unit. These operating segments are aggregated into a single reporting segment as they have similar economic characteristics and the segments are similar in the nature of the products, services and production processes, the type of customers of their products and services, and the nature of the regulatory environment. Adoption of IFRS 8 did not have any effect on the financial position or performance of the Group.

IAS 1 *Presentation of Financial Statements*

The revised standard separates owner and non-owner changes in equity. The statement of changes in equity includes only details of transactions with owners, with non-owner changes in equity presented in a reconciliation of each component of equity. In addition, the standard introduces the statement of comprehensive income: it presents all items of recognised income and expense, either in one single statement, or in two linked statements. The Group has elected to present two statements.

IAS 32 *Financial Instruments: Presentation* and IAS 1 *Puttable Financial Instruments and Obligations Arising on Liquidation*

The standards have been amended to allow a limited scope exception for puttable financial instruments to be classified as equity if they fulfill a number of specified criteria. The adoption of these amendments did not have any impact on the financial position or the performance of the Group.

IFRIC 9 *Reassessment of Embedded Derivatives* and IAS 39 *Financial Instruments: Recognition and Measurement*

This amendment to IFRIC 9 requires an entity to assess whether an embedded derivative must be separated from a host contract when the entity reclassifies a hybrid financial asset out of the fair value through profit or loss category. This assessment is to be made based on circumstances that existed on the later of the date the entity first became a party to the contract and the date of any contract amendments that significantly change the cash flows of the contract. IAS 39 now states that if an embedded derivative cannot be reliably measured, the entire hybrid instrument must remain classified as at fair value through profit or loss. The adoption of these amendments did not have any impact on the financial position or the performance of the Group.

IFRIC 16 *Hedges of a Net Investment in a Foreign Operation*

The Interpretation is to be applied prospectively. IFRIC 16 provides guidance on the accounting for a hedge of a net investment. As such it provides guidance on identifying the foreign currency risks that qualify for hedge accounting in the hedge of a net investment, where within the group the hedging instruments can be held in the hedge of a net investment and how an entity should determine the amount of foreign currency gain or loss, relating to both the net investment and the hedging instrument, to be recycled on disposal of the net investment. The Group has concluded that the amendment will have no impact on the financial position or performance of the Group, as the Group has not entered into any such hedges.

3. Basis of Preparation of Financial Statements (continued)

Changes in Accounting Policy and Disclosures (continued)

Improvements to IFRSs

In April 2009 the IASB issued omnibus of amendments to its standards, primarily with a view to removing inconsistencies and clarifying wording. There are separate transitional provisions for each standard. The adoption of the following amendments resulted in changes to accounting policies but did not have any impact on the financial position or performance of the Group.

- IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations:* clarifies that the disclosures required in respect of non-current assets and disposal groups classified as held for sale or discontinued operations are only those set out in IFRS 5. The disclosure requirements of other IFRSs only apply if specifically required for such non-current assets or discontinued operations.
- IFRS 8 *Operating Segment Information:* clarifies that segment assets and liabilities need only be reported when those assets and liabilities are included in measures that are used by the chief operating decision maker. All operating segments of the Group are identified on the basis of internal reports that are regularly reviewed by the Group's top management and represent Moscow business unit, Regional business unit and European business unit. These operating segments are aggregated into a single reporting segment as they have similar economic characteristics and the segments are similar in the nature of the products, services and production processes, the type of customers of their products and services, and the nature of the regulatory environment. Adoption of IFRS 8 did not have any effect on the financial position or performance of the Group.
- IAS 7 *Statement of Cash Flows:* Explicitly states that only expenditure that results in recognising an asset can be classified as a cash flow from investing activities.
- IAS 18 *Revenue:* The Board has added guidance (which accompanies the standard) to determine whether an entity is acting as a principal or as an agent. The features to consider are whether the entity:
    - Has primary responsibility for providing the goods or service
    - Has inventory risk
    - Has discretion in establishing prices
    - Bears the credit risk

The Group has assessed its revenue arrangements against these criteria and concluded that it is acting as principal in all arrangements. The revenue recognition accounting policy has been updated accordingly.

- IAS 20 *Accounting for Government Grants and Disclosures of Government Assistance:* Loans granted with no or low interest will not be exempt from the requirement to impute interest. Interest is to be imputed on loans granted with below-market interest rates. This amendment did not impact the Group.
- IAS 36 *Impairment of Assets:* The amendment clarified that the largest unit permitted for allocating goodwill, acquired in a business combination, is the operating segment as defined in IFRS 8 before aggregation for reporting purposes. The amendment has no impact on the Group as the annual impairment test is performed before aggregation.

3. Basis of Preparation of Financial Statements (continued)

Changes in Accounting Policy and Disclosures (continued)

Other amendments resulting from Improvements to IFRSs to the following standards did not have any impact on the accounting policies, financial position or performance of the Group:

- IFRS 2 *Share-based Payment*
- IFRS 7 *Financial Instruments: Disclosures*
- IAS 1 *Presentation of Financial Statements*
- IAS 8 *Accounting Policies, Change in Accounting Estimates and Error*
- IAS 10 *Events after the Reporting Period*
- IAS 19 *Employee Benefits*
- IAS 27 *Consolidated and Separate Financial Statements*
- IAS 28 *Investments in Associates*
- IAS 31 *Interest in Joint Ventures*
- IAS 34 *Interim Financial Reporting*
- IAS 38 *Intangible Assets*
- IAS 39 *Financial Instruments: Recognition and Measurement*
- IAS 40 *Investment Properties*
- IFRIC 9 *Reassessment of Embedded Derivatives*
- IFRIC 16 *Hedge of a Net Investment in a Foreign Operation*

The Group has not applied the following IFRS and IFRIC Interpretation that have been issued but are not yet effective:

- IAS 39 *Financial Instruments: Recognition and Measurement — Eligible Hedged Items (Amendment)*
- IFRIC 17 *Distributions of Non-cash Assets to Owners*

IAS 39 *Financial Instruments: Recognition and Measurement – Eligible Hedged Items*

The amendment clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as a hedged item. This also covers the designation of inflation as a hedged risk or portion in particular situations.

IFRIC 17 *Distributions of Non-cash Assets to Owners*

The interpretation provides guidance on accounting for arrangements whereby an entity distributes non-cash assets to shareholders either as a distribution of reserves or as dividends.

The Group plans to apply standards and interpretations not yet effective for annual periods beginning on or after their effective dates.

The Group expects that the adoption of the pronouncements listed above will have no significant impact on the Group's results of operations and financial position in the period of initial application.

4. Significant Accounting Policies and Estimates

Principles of Consolidation

Subsidiaries

The consolidated financial statements of the Group comprise the financial statements of the Company and its subsidiaries.

Subsidiaries are those entities in which the Group has an interest of more than one half of the voting rights, or otherwise has power to exercise control over their operations. Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases. All intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

Business Combinations and Goodwill

Business Combinations from January 1, 2009

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date through profit and loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognised in accordance with IAS 39 either in profit or loss or as change to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the consideration transferred over the Group's net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

4. Significant Accounting Policies and Estimates (continued)

Principles of Consolidation (continued)

Business Combinations prior to December 31, 2008

Business combinations, including business combinations involving entities or businesses under common control, were accounted for using the purchase method. The cost of an acquisition was measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination were measured initially at fair values at the date of acquisition, irrespective of the extent of any non-controlling interest (formerly known as minority interest).

Investments in Associates

Associates are entities in which the Group generally has between 20% and 50% of the voting rights, or is otherwise able to exercise significant influence, but which it does not control or jointly control. Investments in associates are accounted for under the equity method and are initially recognised at cost, including goodwill. Subsequent changes in the carrying value reflect the post-acquisition changes in the Group's share of net assets of the associate. The Group's share of its associates' profits or losses is recognised in the income statement, its share of movements in reserves is recognised in equity and its share of the net assets of associates is included in the consolidated statement of financial position. However, when the Group's share of losses in an associate equals or exceeds its interest in the associate, the Group does not recognise further losses, unless the Group is obliged to make further payments to, or on behalf of, the associate.

Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

The share of profits or losses of associates is shown on the face of the income statement. These are the profits or losses attributable to equity holders of the associates and therefore are profits or losses after tax and non-controlling interests in the subsidiaries of the associates. The financial statements of the associates are prepared for the same reporting period as the parent company.

Interests in Joint Ventures

The Group's interest in a joint venture which is a jointly controlled entity is accounted for using the equity method of accounting until the date on which the Group ceases to have joint control over the joint venture. When the Group contributes or sells assets to the joint venture, any portion of gain or loss from the transaction is recognised based on the substance of the transaction. When the Group purchases assets from the joint venture, the Group does not recognise its share of the profit of the joint venture from the transaction until it resells the assets to an independent party. The financial statements of the joint venture are prepared for the same reporting period as the parent company.

Functional and Presentation Currency

The Group's consolidated financial statements are presented in Russian Roubles, which is also the parent company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. All financial information presented in RUR has been rounded to the nearest thousand.

4. Significant Accounting Policies and Estimates (continued)

Functional and Presentation Currency (continued)

The translation of the financial statements from the functional currency to the presentation currency is done in accordance with the requirements of IAS 21 *The Effects of Changes in Foreign Exchange Rates*. The assets and liabilities of the subsidiaries which use local currencies as the functional currency are translated into the presentation currency at the rate of exchange ruling at the reporting date, and their transactions are translated at the weighted average exchange rates for the year. Equity items, other than the net profit or loss for the year that is included in the balance of accumulated profit or loss, are translated at the historical exchange rate effective at the date of transition to IFRS. Equity transactions measured in terms of historical cost in a functional currency are translated using the exchange rates at the date of the transaction. The exchange differences arising on the translation are recognised in other comprehensive income or loss.

Transactions in foreign currencies in the Company and each subsidiary are initially recorded in the functional currency at the rate effective at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency using the rate of exchange ruling at the reporting date. All resulting differences are recorded as foreign currency exchange gains or losses in the period in which they arise. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Financial Assets

Initial Recognition and Measurement

Financial assets within the scope of IAS 39 *Financial Instruments: Recognition and Measurement* are classified as either financial assets at fair value through profit or loss, loans and receivables, held to maturity investments, or available-for-sale financial assets, as appropriate. The Group determines the classification of its financial assets at initial recognition. When financial assets are recognised initially, they are measured at fair value, plus directly attributable transaction costs. All regular way purchases and sales of financial assets are recognised on the trade date, which is the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Subsequent Measurement

The measurement of financial assets depends on their classification as follows:

Financial Assets at Fair Value through Profit or Loss

Investments classified as held for trading are included in the category "financial assets at fair value through profit or loss". Investments are classified as held for trading if they are acquired for the purpose of selling in the near term. Gains or losses on investments held for trading are recognised in profit and loss.

Financial assets may be designated at initial recognition as at fair value through profit or loss if the following criteria are met: (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or recognising gains or losses on them on a different basis; or (ii) the assets are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) the financial asset contains an embedded derivative that would need to be separately recorded. During the years ended December 31, 2009, 2008 and 2007, the Group did not hold any investments in this category.

4. Significant Accounting Policies and Estimates (continued)

Financial Assets (continued)

Held-to-maturity Investments

Non-derivative financial assets with fixed or determinable payments and fixed maturity are classified as held-to-maturity when the Group has the positive intention and ability to hold them to maturity. During the years ended December 31, 2009, 2008 and 2007, the Group did not hold any investments in this category.

Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition, such financial assets are subsequently measured at amortised cost using the effective interest rate method, less impairment. The effective interest rate amortization is included in finance income in the income statement. The losses arising from impairment are recognised in income statement in finance cost.

Available-for-sale Financial Assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the three preceding categories. As at December 31, 2009, 2008 and 2007, the Group had no available-for-sale financial assets.

Derecognition

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, a new asset is recognised to the extent of the Group's continuing involvement in the asset.

In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

4. Significant Accounting Policies and Estimates (continued)

Financial Assets (continued)

Impairment of Financial Assets

The Group assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and Receivables

For amounts due from loans and receivables carried at amortised cost, the Group first assesses individually whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group, if, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognised in the income statement.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

Available-for-sale Financial Investments

For available-for-sale financial investments, the Group assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the income statement - is removed from other comprehensive income and recognised in the income statement. Impairment losses on equity investments are not reversed through the income statement; increases in their fair value after impairment are recognised in other comprehensive income.

4. Significant Accounting Policies and Estimates (continued)

Financial Assets (continued)

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the income statement.

Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the income statement, the impairment loss is reversed through the income statement.

Property and Equipment

Property and equipment are recorded at historical cost, excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. At each reporting date, management assesses whether there is any indication of impairment of property and equipment. If any such indication exists, management estimates the recoverable amount, which is determined as the higher of an asset's fair value less costs to sell and its value in use. The carrying amount is reduced to the recoverable amount, and the difference is recognised as an expense (impairment loss) in the income statement. An impairment loss recognised for an asset in prior years is reversed if there has been a change in the estimates used to determine the asset's recoverable amount.

Depreciation is calculated on property and equipment principally on a straight-line basis from the time the assets are available for use, over the following estimated economic useful lives:

Description	Useful life, years
Leasehold improvements	10
Buildings	10-30
Restaurant equipment	4-10
Computer equipment and electronics	4
Office furniture and fixtures	10
Vehicles	5-10

Depreciation attributable to restaurants is presented in cost of sales; other depreciation is presented within selling, general and administrative expenses in the consolidated income statement. Depreciation of an asset ceases at the earlier of the date the asset is classified as held for sale and the date the asset is derecognized.

The asset's residual values, useful lives and methods are reviewed, and adjusted as appropriate, at each financial year-end. Repair and maintenance expenditure is expensed as incurred. Major renewals and improvements are capitalized if it can be clearly demonstrated that they extend the life of the asset or significantly increase its revenue generating capacity beyond its originally assessed standard of performance, and the assets replaced are derecognized. Gains and losses arising from the retirement or disposal of property and equipment are included in the consolidated income statement as incurred.

Assets under construction are stated at cost which includes cost of construction and equipment and other direct costs. Assets under construction are not depreciated until the constructed or installed asset is ready for its intended use.

4. Significant Accounting Policies and Estimates (continued)

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Intangible assets are amortised on a straight-line basis over the useful economic lives from 4 to 15 years and assessed for impairment whenever there is an indication that the intangible asset may be impaired. Amortization periods are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. The amortization expense on intangible assets is recognised in the consolidated income statement in the expense category consistent with the function of the intangible asset. The following specific amortization terms are applied for each type of intangible asset:

The Group capitalizes franchise lump sums paid to T.G.I. Friday's Inc. for each new restaurant opened by the Group under "T.G.I. Friday's" brand name. Such franchise lump sums are amortised on a straight-line basis over the franchise contractual period of 15 years.

The Group has exclusive rights to lease and sublease a number of restaurant premises. These rights are accounted for at cost and are amortised on a straight-line basis over the useful life period, generally from 4 to 10 years.

Software development costs are capitalized in accordance with requirements of IAS 38 Intangible assets at cost and are amortised on a straight-line basis over their estimated useful lives, generally four years.

Goodwill

Goodwill represents the excess of the cost of acquisition over the net fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities of the acquired subsidiary or associate at the date of acquisition. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is not amortised. Instead it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. As at the acquisition date any goodwill acquired in acquisitions is allocated to each of the cash-generating units or groups of cash-generating units expected to benefit from the combination's synergies, irrespective of whether other assets and liabilities of the Group are assigned to those units or group of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (or group of cash-generating units), to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods. The carrying amount of goodwill at December 31, 2009 and 2008, was RUR 143,137 and at December 31, 2007, RUR 18,131.

4. Significant Accounting Policies and Estimates (continued)

Impairment of Non-Financial Assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or restaurant level group of assets' (cash generating unit) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or cash generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognised in the income statement in those expense categories consistent with the function of the impaired asset.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the income statement.

The following criteria are also applied in assessing impairment of specific assets:

Goodwill

Goodwill is tested for impairment annually (as at December 31) and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

Intangible assets

Intangible assets with indefinite useful lives are tested for impairment annually as at December 31 either individually or at the cash generating unit level, as appropriate and when circumstances indicate that the carrying value may be impaired.

Inventories

Inventories, which include food, beverages and other supplies, are stated at the lower of cost or net realisable value. Cost of inventory is determined on the weighted-average basis and includes expenditures incurred in acquiring inventories and bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

4. Significant Accounting Policies and Estimates (continued)

Value Added Tax

The Russian tax legislation permits settlement of value added tax ("VAT") on a net basis.

VAT is payable upon invoicing and delivery of goods, performing work or rendering services, as well as upon collection of prepayments from customers. VAT on purchases, even if they have not been settled at the reporting date, is deducted from the amount of VAT payable.

Where provision has been made for impairment of receivables, impairment loss is recorded for the gross amount of the debt, including VAT.

VAT recoverable arises when VAT related to purchases exceeds VAT related to sales.

Receivables

Receivables, which generally have a short term, are recognised and carried at the original invoice amount less an allowance for any uncollectible amounts. Allowance is made when there is objective evidence that the Group will not be able to collect the debts. Impaired debts are derecognised when they are assessed as uncollectible.

Cash and Cash Equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and in hand, cash in transit and short-term deposits with an original maturity of three months or less.

Equity

Share Capital

Ordinary shares are classified as equity. External costs directly attributable to the issue of new shares are shown as a deduction in equity from the proceeds. Any excess of the fair value of consideration received over the par value of shares issued is recognised as additional paid-in capital.

Dividends

Dividends are recognised when the shareholder's right to receive the payment is established. Dividends in respect of the period covered by the financial statements that are proposed or declared after the reporting date but before approval of the financial statements are not recognised as a liability at the reporting date in accordance with IAS 10 *Events After the Reporting Period*.

Treasury Shares

Own equity instruments which are reacquired by the Group ("treasury shares") are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Treasury shares are not recognised as a financial asset regardless of the reason for which they are reacquired.

4. Significant Accounting Policies and Estimates (continued)

Financial Liabilities

Initial Recognition and Measurement

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Group determines the classification of its financial liabilities at initial recognition.

Financial liabilities are recognised initially at fair value and in the case of loans and borrowings, less directly attributable transaction costs.

Subsequent Measurement

The measurement of financial liabilities depends on their classification as follows:

Financial Liabilities at Fair Value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that do not meet the hedge accounting criteria as defined by IAS 39. Gains or losses on liabilities held for trading are recognised in the income statement.

The Group has not designated any financial liabilities upon initial recognition as at fair value through profit or loss.

Loans and Borrowings

Loans and credit facilities are initially recognised at fair value of the consideration received less directly attributable transaction costs. After initial recognition, loans and credit facilities are measured at amortised cost using the effective interest rate method; any difference between the initial fair value of the consideration received (net of transaction costs) and the redemption amount is recognised as an adjustment to interest expense over the period of the loan.

Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the amortisation process.

Leases

Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised from the commencement of the lease term at the fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to interest expense.

The depreciation policy for depreciable leased assets is consistent with that for depreciable assets, which are owned. If there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term or its useful life.

4. Significant Accounting Policies and Estimates (continued)

Financial Liabilities (continued)

Leases, where the lessor retains substantially all the risks and benefits of ownership of the asset, are classified as operating leases. Operating lease payments are recognised as an expense in the consolidated income statement on a straight-line basis over the lease term. Depending on contractual terms, the operating lease payment amounts are calculated for each restaurant as either a percentage of revenue with a minimum fixed monthly payment or as a fixed monthly payment. Some lease agreements contain escalation clauses.

Liabilities to Partners

Before 2007, the Group entered into partnership agreements with third parties (the "partners") in respect of opening and operating the new restaurants. In accordance with the partnership agreements, the partners have the right to obtain a share in profits of a particular restaurant or group of restaurants in return for their initial cash investments into the restaurants. The Group manages the operations of the restaurants. The Group recognises all assets and liabilities of the restaurant in the Group's consolidated financial statements as well as all income and expenses from their operations. In addition, the Group recognises a liability to partners under the partnership agreements.

Some of the Group's subsidiaries in Russia and CIS are incorporated in the legal form of limited liability companies (LLC) and have several participants (or partners). Each participant has a right to a dividend distribution proportional to its ownership interest. In addition to the contribution to the charter capital the partners provide LLCs with interest-bearing or interest-free loans which are linked to their ownership interest in a LLC. If a participant decides to exit the LLC, the company is obliged to repay the actual value of the participant's interest which is determined as its proportional share of net assets reported in the local statutory accounts. Therefore, the partners' interest in these LLCs and loans provided are classified as a liability to partners in the Group's consolidated statement of financial position.

At initial recognition, the liability to partners is recognised at its fair value which is equal to the initial cash investment of the partner. Subsequently, the liability to partners is measured at amortised cost which is calculated as the net present value of the estimated future payments to the partner using an effective interest method and any unwinding of the discount is reflected in the income statement as a finance charge. If the estimates of the future cash payments to the partner change, the carrying amount of the liability is recalculated by computing the present value of estimated future cash flows at the original effective interest rate. The adjustment is recognised as finance income or expense in the consolidated income statement. The income attributed to the partners is presented as a finance expense in the consolidated income statement.

The differences between the carrying values of partners liabilities relating to acquired ownership interest and the consideration paid to acquire ownership interest are recognised as financial expense.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the income statement.

4. Significant Accounting Policies and Estimates (continued)

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Fair Value of Financial Instruments

The fair value of financial instruments that are traded on active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. For financial instruments not traded in an active market, fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

Amortised Cost of Financial Instruments

Amortised cost is computed using the effective interest method less any allowance for impairment and principal repayment or reduction. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a borrowing cost.

Revenue Recognition

Revenues are recognised when it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenues are measured at the fair value of the consideration received or receivable and comprise amounts received following direct sales in restaurant and amounts received or receivable from franchise holders, net of any rebates, VAT and other sales taxes.

The following specific recognition criteria must also be met before revenue is recognised:

Revenues from Restaurants and Canteens

Restaurant and canteens revenues are recognised when food and beverages are served. Revenues from food distribution are recognised upon delivery to the customers. Revenues are recognised at fair value of meals and services delivered, net of value added tax charged to customers.

4. Significant Accounting Policies and Estimates (continued)

Revenue Recognition (continued)

Franchise Revenues

Franchise revenues comprise fixed franchise fees and continuing royalty fees, which are charged for the right to use certain of the Group's intellectual property granted by the franchise agreements and for other services provided during the period of the agreement. Franchise fees are recognised as revenues as the rights are granted. Royalty fee from an individual licensee is recognised as a percentage of its revenue over the period of the agreement. Royalty fees are reported as franchise revenue when the fees are earned and become receivable.

Sublease Revenues

The Group leases certain premises. Parts of these premises are subleased to third parties. Sublease revenues are recognised over the lease terms.

Sales of Semi-finished Products to Franchisees

The Group gains revenues from sales of semi-finished products produced at the Group's main kitchen production line. Revenues are recognised at fair value of the consideration receivable, net of value added tax.

Interest Income

For all financial instruments measured at amortised cost interest income or expense is recorded using the effective interest rate, which is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in the income statement.

Borrowing Costs

Borrowing costs of the Group include interest on bank overdrafts, short-term, long-term credit facilities and bonds. To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization are determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is calculated as the weighted average of the borrowing costs applicable to the borrowings of the entity that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. Other borrowing costs are recognised as an expense in the period in which they are incurred. For the year ended December 31, 2009, 2008 and 2007, the Group capitalized borrowing costs for leasehold improvements in the amount of RUR 5,266, RUR 18,815 and RUR 5,758 using the capitalization rate from 8.80% to 15.00%, 13.71% and 9.96%, respectively.

Start-up Expenses for New Restaurants

Start-up expenses for new restaurants represent costs related to the construction and the opening of new restaurant premises. Such expenses include rent and payroll expenses, new personnel training and other overhead expenses that arise before the opening of new restaurants. Start-up expenses for new restaurants are recognised as operating expense in the accounting period the related work was performed.

4. Significant Accounting Policies and Estimates (continued)

Employee Benefits

The Company accrues for the employees' compensated absences (vacations) as the additional amount that the Company expects to pay as a result of the unused vacation that has accumulated at the reporting date.

Under provision of the Russian legislation, social contributions are made through a unified social tax ("UST") calculated by the Group by the application of a regressive rate (from 26% to 2%) to the annual gross remuneration of each employee. The Group allocates the UST to three social funds (state pension fund, social and medical insurance funds), where the rate of contributions to the pension fund varies from 20% to 2% depending on the annual gross salary of each employee. The Group's contributions relating to UST are expensed in the year to which they relate. Total contributions for UST amounted to RUR 380,645, RUR 408,472 and RUR 299,993 during the years ended December 31, 2009, 2008 and 2007, respectively, and they were classified as payroll expenses in these consolidated financial statements.

Loyalty Programmes

Customer loyalty programmes are used by the Group to provide customers with award credits as part of a sales transaction, including awards that can be redeemed for goods and services not supplied by the entity. The Group company collecting the consideration on behalf of the third party measures its revenue as the net amount retained on its own account. The Group company acting as an agent for a third party recognises revenue arising from rendering agency services to that third party as revenue from rendering services.

The Group uses the "Honoured Guest" and "Malina" loyalty programmes to build brand loyalty, retain its valuable customers and increase sales volume. The programmes are designed to reward customers for past purchases and to provide them with incentives to make future purchases. Each time a customer buys meals in one of the Group's restaurants, the Group grants the customer loyalty award credits.

The "Honoured Guest" programme operates in Russian regions and a customer can redeem the award credits as they are granted for free meals. The "Malina" programme operates in Moscow region and a customer using this programme can redeem the award credits as they are granted only for getting goods and services listed in a special catalogue and provided by a programme operator.

Taxes

Current Income Tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the reporting date, in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the income statement. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Income Tax

Deferred tax assets and liabilities are calculated in respect of temporary differences at the reporting date using the liability method. Deferred income taxes are provided for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes, except where the deferred income tax arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

4. Significant Accounting Policies and Estimates (continued)

Taxes (continued)

Deferred tax liabilities are recognised for all taxable temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint ventures, except to the extent that the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recorded only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised. Deferred tax assets and liabilities are measured at tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date. Deferred tax assets are recognised for all deductible temporary differences arising from investments in subsidiaries, branches and associates, and interests in joint ventures, to the extent that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred income tax is charged or credited to the income statement, except when it relates to items recognised outside profit or loss, in which case the deferred tax is also recognised in the statement of comprehensive income or directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxable authority.

Unified Tax on Imputed Income

Certain restaurants of the Group's subsidiaries located outside the Moscow region with restaurants meeting specified criteria are subject to unified tax on imputed income paid instead of corporate income tax, value added tax, property tax and unified social tax. According to the Russian Tax Code companies engaged in restaurant and catering services are subject to unified tax if a trading area of a restaurant does not exceed 150 square meters. For the years ended December 31, 2009 and 2008, the share of revenues subject to unified tax on imputed income amounted to approximately 15%. For the year ended December 31, 2007, the share of revenues subject to unified tax on imputed income amounted to approximately 13%. Imputed income is calculated as a fixed amount of imputed income per square meter of a trading area specified by the Russian Tax Code and respective regional/local authorities. Unified tax on imputed income is fixed at 15% of imputed income.

The Group recognizes the unified tax on imputed income as other general and administrative expenses in its consolidated income statement. For the years ended December 31, 2009, 2008 and 2007, the unified tax on imputed income amounted to RUR 14,180, RUR 5,418 and RUR 2,839, respectively.

4. Significant Accounting Policies and Estimates (continued)

Significant Accounting Judgements, Estimates and Assumptions

On an on-going basis, management of the Group evaluates its estimates and assumptions. Management of the Group bases its estimates and assumptions on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Because of the uncertainty of factors surrounding the estimates or judgments used in the preparation of the Group's consolidated financial statements actual results may vary from these estimates.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimates, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Classification of Lease Agreements

A lease is classified as a finance lease if it transfers to the Group substantially all the risks and rewards incidental to ownership, otherwise it is classified as an operating lease. Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. If the lease term is longer than 75 percent of the economic life of the asset, or if at the inception of the lease the present value of the minimum lease payments amounts to at least 90 percent of the fair value of the leased asset, the lease is classified by the Group as finance lease, unless it is clearly demonstrated otherwise.

Operating Lease Terms

The lease term is the non-cancellable period for which the lessee has contracted to lease the asset together with any further terms for which the lessee has the option to continue to lease the asset, with or without further payment, when at the inception of the lease it is reasonably certain that the lessee will exercise the option. When determining the lease term, the Group includes the option periods which relate to its preferential right to renew the lease agreement under the Civil Code of the Russian Federation provided the Group has complied with the lease agreement terms (all other conditions being equal). Preferential right arises if the lessor refused to enter into a lease agreement with the lessee for a new term, but within one year from the date of expiration of the lease agreement with the lessee entered into a lease agreement with a third party. In such case the lessee is entitled to claim through the court the transfer to him of the rights and responsibilities under such an agreement and compensation of damages caused by refusal to renew the lease agreement and/or to claim above damages only. Preferential right does not exist if the lessor decides not to continue leasing the property.

Partnership Agreements

Before 2007, in order to raise capital for the development of its restaurants in the Moscow region, the Group entered into a number of partnership agreements. The Group has determined that, under the terms of the partnership agreements, it maintains full control of the restaurants business while partners gain a share in the profits of the restaurants.

4. Significant Accounting Policies and Estimates (continued)

Significant Accounting Judgements, Estimates and Assumptions (continued)

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful Lives of Property and Equipment

The Group assesses the remaining useful lives of items of property and equipment at least at each financial year-end. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate in accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*. These estimates may have a material impact on the amount of the carrying values of property and equipment and on depreciation recognised in profit or loss.

Impairment of Non-financial Assets

Generally, the Group assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Group makes an estimate of the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, which is determined as the higher of an assets fair value less cost to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the assets. In determining fair value less costs to sell, an appropriate valuation model is used. The Group recognised impairment losses for the years ended December 31, 2009, 2008 and 2007 in the amount of RUR 42,435, RUR 140,851 and nil respectively.

Impairment of Goodwill

The Group's impairment test for goodwill is based on value in use calculations for cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The Group recognised impairment losses for the years ended December 31, 2009, 2008 and 2007 in the amount of nil, RUR 11,225 and nil respectively.

Fair Values of Assets and Liabilities Acquired in Business Combinations

The Group is required to recognise separately, at the acquisition date, the identifiable assets, liabilities and contingent liabilities acquired or assumed in a business combination at their fair values, which involves estimates. Such estimates are based on valuation techniques, which require considerable judgment in forecasting future cash flows and developing other assumptions.

Allowance for Impairment of Advances Paid, Taxes Recoverable and Receivables

Management maintains an allowance for impairment for doubtful advances paid and receivables to provide for losses from the inability of suppliers to deliver goods or services for which they received prepayments from the Group, inability of franchisees to settle their debts and unrecoverable taxes. When evaluating the adequacy of an allowance for impairment of advances paid, taxes recoverable and receivables, management bases its estimates on specific analysis of the major outstanding prepayments, taxes recoverable and accounts receivable balances and historical write-off experience. If the financial condition of those suppliers or franchisees were to deteriorate, actual write-offs might be higher than expected. As of December 31, 2009, 2008 and 2007, the allowance for impairment of advances paid, taxes recoverable and receivables amounted to RUR 48,676, RUR 36,461 and RUR 37,799, respectively.

4. Significant Accounting Policies and Estimates (continued)

Significant Accounting Judgements, Estimates and Assumptions (continued)

Allowance for Impairment of Inventory

Management of the Group regularly reviews the need to provide for slow moving or damaged inventory based on monthly aging and inventory turnover report as well as based on physical inventory observation. As of December 31, 2009, 2008 and 2007, the allowances for impairment of inventory amounted to RUR 40,005, RUR 34,884 and RUR 37,038, respectively.

Current Taxes

Russian tax legislation is subject to varying interpretation and changes occurring frequently. Further, the interpretation of tax legislation by tax authorities as applied to the transactions and activity of the Group's entities may not coincide with that of management. As a result, tax authorities may challenge transactions and the Group's entities may be assessed additional taxes, penalties and interest. The periods remain open to review by the tax authorities with respect to tax liabilities for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods. During the year ended December 31, 2007 the Group reduced its costs of operations by approximately RUR 20,461 through the utilization of certain tax planning strategies. Other possible uncertain tax positions amounted to RUR 91,217 at December 31, 2009. See also Note 29 – Commitments and Contingencies.

Deferred Tax Assets

Management judgment is required for the calculation of current and deferred income taxes. Deferred tax assets are recognised to the extent that their utilisation is probable. The utilisation of deferred tax assets will depend on whether it is possible to generate sufficient taxable income in respective tax type and jurisdiction. Various factors are used to assess the probability of the future utilisation of deferred tax assets, including past operating results, operational plan, expiration of tax losses carried forward, and tax planning strategies. If actual results differ from such estimates or if these estimates must be adjusted in future periods, the financial position, results of operations and cash flows may be negatively affected. In such an event, the assessment of future utilisation of deferred tax assets must be reduced and this reduction be recognised in profit or loss.

5. Business Combinations

Acquisition of Mister Lee LLC

On May 25, 2007, the Group acquired a 100% ownership interest in Mister Lee LLC ("Mister Lee"), a Russian limited liability company, for cash consideration of RUR 1,000. The acquisition resulted in excess of the purchase price over the fair value of the net liabilities assumed of RUR 19,131, which was recorded as goodwill in the amount of RUR 18,131. Net profit of Mister Lee was included in the Group's consolidated income statement from the date of acquisition in the amount of RUR 1,587.

Acquisition of Den' LLC

On June 30, 2008, the Group acquired a 100% ownership interest in Den' LLC ("Den'"), a Russian limited liability company, for cash consideration of RUR 34,803. The main asset of "Den'" was a rent right with a fair value of RUR 23,578. The acquisition resulted in excess of the purchase price over the fair value of the net assets assumed of RUR 11,225, which was recorded as goodwill as the Group expected to generate profits using this location to operate a restaurant business. An impairment loss was recognised in the amount of RUR 11,225 at December 31, 2008 and was allocated fully to goodwill. An impairment loss was a consequence of rent cost reduction and negative future cash flow.

5. Business Combinations (continued)

Acquisition of Valderama Investments Limited

On July 5, 2008, the Group acquired a 100% ownership interest in Valderama Investments Limited ("Valderama") from Rostik Investment Group Inc., a related party, for total consideration of 12,220 thousand US dollars (RUR 288,040 at the exchange rate at July 5, 2008), including valuation cost of RUR 717. Valderama owned 100% participatory interest in AirTrade LLC ("AirTrade") and 75.06% of the share capital of KOP Pulkovo OJSC ("Pulkovo"), the Group's joint ventures. Until the acquisition the Group participated in joint venture agreements with AirTrade and Pulkovo and had 20% interest in jointly controlled entities.

The financial position and the results of operations of Valderama, AirTrade and Pulkovo were included in the Group's consolidated financial statements beginning July 5, 2008 as the Group effectively exercised control over their operations since that date. In the period from January 1, 2008 to July 5, 2008, the Group accounted for its investment in these joint ventures under the equity method (refer to Note 8).

Identifiable assets, liabilities and contingent liabilities of Valderama, AirTrade and Pulkovo and the resulting goodwill were as follows:

	July 5, 2008
Property and equipment	30,780
Intangible assets	241,230
Inventories	2,000
Accounts receivable	14,323
Cash	30,925
Total assets	**319,258**
Non-current liabilities	(37,827)
Deferred income tax liabilities	(58,955)
Current liabilities	(18,814)
Total liabilities	**(115,596)**
Minority interest related to KOP Pulkovo	**(40,628)**
Net assets	**163,034**
Fair value of net assets attributable to 100% ownership interest	**163,034**
Purchase consideration	**288,040**
Goodwill as of July 5, 2008	**125,006**

In 2008, cash flow on acquisition was as follows:

	2008
Net cash acquired with the subsidiary	30,925
Cash paid	(287,323)
Net cash outflow	**(256,398)**

Valderama's consolidated net profit for the period from July 5, 2008 to December 31, 2008 amounted to RUR 24,830. If the acquisition of Valderama group had occurred on January 1, 2008, the Group's revenue for the year ended December 31, 2008, would have increased by the amount of RUR 103,821 and the Group's loss for the year ended December 31, 2008, would have decreased by the amount of RUR 17,747. Estimates of contribution of revenue and profit to the Group are based on unaudited information derived from previous management accounts of Valderama, AirTrade and Pulkovo.

5. Business Combinations (continued)

Goodwill

Movements in goodwill arising on the acquisition of subsidiaries were as follows at December 31:

	Gross amount	Impairment losses	Carrying amount
At December 31, 2006	**–**	**–**	**–**
Goodwill recognised on acquisition of subsidiaries	18,131	–	18,131
Impairment	–	–	–
At December 31, 2007	**18,131**	**–**	**18,131**
Goodwill recognised on acquisition of subsidiaries	136,231	–	136,231
Impairment	–	(11,225)	(11,225)
At December 31, 2008	**154,362**	**(11,225)**	**143,137**
At December 31, 2009	**154,362**	**(11,225)**	**143,137**

The Group's goodwill was tested for impairment at the restaurants (cash generating unit) level by comparing values of cash generating units' assets including goodwill to their recoverable amounts. The recoverable amount of cash generating units has been determined based on a value in use calculation using cash flows from financial budgets approved by key management covering the period of useful life of the main asset of each cash generating unit. The cash flow projections were discounted at the Group's cost of financing, 16% and 18% in Russian Rouble nominal terms for 2009 and 2008, respectively. The Group's management believes that all of its estimates are reasonable as they are consistent with the internal reporting and reflect management's best estimates.

The result of applying discounted cash flow models reflects expectations about possible variations in the amount and timing of future cash flows and is based on reasonable and supportable assumptions that represent management's best estimate of the range of uncertain economic conditions.

As a result of the assessment, the carrying amount of Den' cash generating unit exceeded its recoverable amount therefore an impairment loss was recognised in the 2008 income statement in the amount of RUR 11,225. In 2009 there was no additional impairment of goodwill. In regard to the assessment of value-in-use of other cash generating units, management believes that no reasonable change in any of the above assumptions would cause the carrying value of the unit to materially exceed its recoverable amount.

6. Intangible Assets

The movement in intangible assets for the year ended December 31, 2007 was as follows:

	Franchise rights	Exclusive rent rights	Trademarks*	Software	Total
Cost					
At December 31, 2006	**15,729**	**84,722**	**22,703**	**67,302**	**190,456**
Additions	2,123	–	355	28,231	**30,709**
Disposals	(4,220)	–	–	(2,181)	**(6,401)**
Translation difference	141	2,201	(1,533)	68	**877**
At December 31, 2007	**13,773**	**86,923**	**21,525**	**93,420**	**215,641**
Accumulated Amortisation and Impairment					
At December 31, 2006	**(4,192)**	**(19,533)**	**(290)**	**(6,027)**	**(30,042)**
Charge for the year	(1,408)	(8,086)	(1,480)	(3,118)	**(14,092)**
Disposals	1,025	–	–	2,112	**3,137**
Translation difference	12	(196)	76	(125)	**(233)**
At December 31, 2007	**(4,563)**	**(27,815)**	**(1,694)**	**(7,158)**	**(41,230)**
Net Book Value					
At December 31, 2006	**11,537**	**65,189**	**22,413**	**61,275**	**160,414**
At December 31, 2007	**9,210**	**59,108**	**19,831**	**86,262**	**174,411**

Trademark "El Rincon Espanol" was reclassified retrospectively from "Franchise right" to "Trademarks". This reclassification did not have an impact on the amount of depreciation expense for all periods presented.

The movement in intangible assets for the year ended December 31, 2008 was as follows:

	Franchise rights	Exclusive rent rights	Trademarks	Software	Total
Cost					
At December 31, 2007	**13,773**	**86,923**	**21,525**	**93,420**	**215,641**

At December 31, 2008	**(5,964)**	**(96,884)**	**(25,244)**	**(27,430)**	**(155,522)**
Net Book Value					
At December 31, 2007	**9,210**	**59,108**	**19,831**	**86,262**	**174,411**
At December 31, 2008	**16,693**	**335,219**	**1,040**	**78,369**	**431,321**

6. Intangible Assets (continued)

The Group recognised impairment losses from Trademark "El Rincon Espanol" in the amount of RUR 18,167 and from rent options in Samara LLC and Rosinter Czech Republic s.r.o. in the amount of RUR 21,674 and RUR 10,286, respectively, as future benefit from these assets is unlikely to flow to the Group. Impairment losses were identified as a result of the testing at the level of cash generating units. Recognised impairment losses relate to cash generating units with negative projected cash flows. Carrying amount of the assets was written off to the recoverable amount equal to nil.

The movement in intangible assets for the year ended December 31, 2009 was as follows:

	Franchise rights	Exclusive rent rights	Trademarks	Software	Total
Cost					
At December 31, 2008	**22,657**	**432,103**	**26,284**	**105,799**	**586,843**
Additions	9,267	11,546	90	3,029	**23,932**
Disposals	–	(26,603)	–	(325)	**(26,928)**
Translation difference	12	4,775	754	(580)	**4,961**
At December 31, 2009	**31,936**	**421,821**	**27,128**	**107,923**	**588,808**
Accumulated Amortisation and Impairment					
At December 31, 2008	**(5,964)**	**(96,884)**	**(25,244)**	**(27,430)**	**(155,522)**
Charge for the year	(2,877)	(64,379)	(134)	(24,466)	**(91,856)**
Disposals	–		–	95	**95**
Impairment of intangible assets	–	(13,419)	–	–	**(13,419)**
Translation difference	59	(301)	(737)	281	**(698)**
At December 31, 2009	**(8,782)**	**(174,983)**	**(26,115)**	**(51,520)**	**(261,400)**
Net Book Value					
At December 31, 2008	**16,693**	**335,219**	**1,040**	**78,369**	**431,321**
At December 31, 2009	**23,154**	**246,838**	**1,013**	**56,403**	**327,408**

The Group recognised impairment loss from an exclusive rent right in Rosinter Czech Republic s.r.o. in the amount of RUR 13,419 as future benefit from this asset is unlikely to flow to the Group. Impairment loss was identified as a result of the testing at the level of cash generating units. The recoverable amount of a cash generating unit has been determined based on a value in use calculation using cash flows from financial budgets approved by key management covering the period of useful life of the main asset of each cash generating unit. The cash flow projections were discounted at the Group's cost of financing, 16% and 18% in Russian Rouble nominal terms for 2009 and 2008, respectively. Recognised impairment loss relates to a cash generating unit with insufficient projected cash flows. The carrying amount of the asset was written off to the recoverable amount equal to nil.

7. Property and Equipment

The movement in property and equipment for the year ended December 31, 2007 was as follows:

	Buildings and leasehold improvements	Restaurant equipment	Computer equipment and electronics	Office furniture and fixtures	Vehicles	Assets under construction	Total
Cost							
At December 31, 2006	**1,542,213**	**551,370**	**152,086**	**122,499**	**17,694**	**133,657**	**2,519,519**

7. Property and Equipment (continued)

As of December 31, 2009, 2008 and 2007, certain items of property and equipment with a carrying value of RUR 458,835, RUR 226,758 and RUR 147,191, respectively, were pledged to banks as collateral against loans to the Group.

The Group has several finance lease contracts for motor vehicles and computer equipment. The carrying value of the leased assets as of December 31, 2009, 2008 and 2007 amounted to RUR 17,481, RUR 27,353 and RUR 25,030, respectively.

The Group recognised impairment losses of property and equipment for the years ended December 31, 2009 and 2008 in the amount of RUR 29,016 and RUR 90,724, respectively, as the recoverable amount of these assets was nil at the same dates. Impairment losses were identified as a result of the testing at the level of restaurants (cash generating units). The recoverable amount of a cash generating unit has been determined based on a value in use calculation using cash flows from financial budgets approved by key management covering the period of useful life of the main asset of each cash generating unit. The cash flow projections were discounted at the Group's cost of financing, 16% and 18% in Russian Rouble nominal terms for 2009 and 2008, respectively. Recognised impairment losses of property and equipment relate to loss-making restaurants located in Moscow, Novosibirsk, Rostov-on-Don, Krasnoyarsk, Togliatti and Samara.

8. Investments in Joint Ventures and Associates

The Group accounted for investments in joint ventures and associates under the equity method.

The movement in investments in joint ventures and associates was as follows:

	Pulkovo and AirTrade Joint Venture	Costa Joint Venture	Associates	Total
At December 31, 2006	**296**	**–**	**2,493**	**2,789**
Investments in joint ventures	7,643	18	–	**7,661**
Share of profit	81	–	976	**1,057**
At December 31, 2007	**8,020**	**18**	**3,469**	**11,507**
Investments in joint ventures	969	74,541	–	**75,510**
Share of (loss)/ profit	–	(32,709)	933	**(31,776)**
Elimination of participatory interest in joint venture due to acquisition	(8,989)	–	–	**(8,989)**
Translation difference	–	(2,469)	–	**(2,469)**
At December 31, 2008	**–**	**39,381**	**4,402**	**43,783**
Share of (loss) /profit	–	(17,857)	798	**(17,059)**
Translation difference	–	998	–	**998**
At December 31, 2009	**–**	**22,522**	**5,200**	**27,722**

In December 2007, the Group entered into a joint venture agreement with Costa Limited ("Costa") which operates coffee houses in the United Kingdom and other countries. The Group and Costa operate Rosworth Investments Limited and its subsidiary as a joint venture. The Group has 50% interest in Rosworth Investments Limited which started its operating activity in 2008. During 2008, the Group contributed RUR 74,541 to the capital of the joint venture.

8. Investments in Joint Ventures and Associates (continued)

The following table illustrates summarised financial information of the Group's interest in the Costa joint venture at December 31, 2009, 2008 and 2007, and for the years then ended:

	2009	**2008**
Non-current assets	35,281	34,268
Current assets	14,976	28,747
	50,257	**63,015**
Non-current liabilities	20,279	8,051
Current liabilities	7,456	15,583
	27,735	**23,634**
Carrying amount of the interest in the joint venture	**22,522**	**39,381**
Revenue	79,177	16,926
Cost of sales	(23,798)	(5,294)
Selling, general and administrative expenses	(84,876)	(50,034)
Net finance income	14,046	7,631
Net operating expenses	(2,406)	(1,938)
Loss for the year	**(17,857)**	**(32,709)**

In July 2008, the Group acquired a 100% ownership interest in Valderama Investments Limited ("Valderama") which holds 100% participatory interest in AirTrade LLC and 75.06% shares in KOP Pulkovo OJSC. The Group eliminated its participatory interest in joint ventures in Pulkovo airport due to the business combination.

Until the acquisition the Group had 20% interest in jointly controlled entities. The financial information of the Group's interest in the Pulkovo joint venture at December 31, 2007 and for the year then ended is as follows:

	2007
Non-current assets	4,908
Current assets	8,319
	13,227
Current liabilities	(4,898)
Carrying amount of the interest in the joint venture	**(4,898)**
Revenue	(26,152)
Cost of sales	(7,257)
Selling, general and administrative expenses	(16,466)
Net operating expenses	(503)
Income tax expense	(55)
Profit for the year	**1,871**

According to the joint venture agreements, the Group's share of profits of joint ventures with AirTrade and Pulkovo was calculated by a formula on the basis of the amounts of revenue and rent expenses for the period.

9. Inventories

Inventories consisted of the following as of December 31:

	2009	2008	2007
Foods, beverages, liquors and tobacco, at cost	144,617	136,104	107,390
Utensils, paper goods and other items, at cost	95,689	88,271	82,567
	240,306	**224,375**	**189,957**
Allowance for slow-moving and damaged items	(40,005)	(34,884)	(37,038)
Total inventories, net	**200,301**	**189,491**	**152,919**

10. Advances Paid

Advances paid consisted of the following as of December 31:

	2009	2008	2007
Advances to suppliers	159,388	182,820	143,661
Advances to employees	7,939	9,031	20,325
	167,327	**191,851**	**163,986**
Allowance for doubtful accounts	(32,728)	(31,420)	(32,111)
Total advances paid, net	**134,599**	**160,431**	**131,875**

As at December 31, 2009, 2008 and 2007, advances to suppliers at nominal value of RUR 32,728, RUR 31,240 and RUR 32,111, respectively, were impaired and fully provided for. Movements in the allowance for impairment of advances paid were as follows:

	2009	2008	2007
At January 1	**31,420**	**32,111**	**37,627**
Charge for the year	6,617	18,093	18,393
Amounts written off	(2,511)	(11,420)	(15,464)
Unused amounts reversed	(2,707)	(7,391)	(8,835)
Translation difference	(91)	27	390
At December 31	**32,728**	**31,420**	**32,111**

11. Trade and Other Receivables

Receivables consisted of the following as of December 31:

	2009	2008	2007
Trade receivables	75,549	85,371	53,367
Other receivables	36,605	22,355	25,496
	112,154	**107,726**	**78,863**
Allowance for doubtful accounts	(15,948)	(5,041)	(5,688)
Total receivables, net	**96,206**	**102,685**	**73,175**

Trade and other receivables are non-interest bearing and are generally on 30-90 days terms.

11. Trade and Other Receivables (continued)

As at December 31, 2009, 2008 and 2007, trade and other receivables at nominal value of RUR 15,948, RUR 5,401 and RUR 5,688, respectively, were impaired and fully provided for. Movements in the provision for impairment of trade and other receivables were as follows:

	2009	2008	2007
At January 1	**5,041**	**5,688**	**19,382**
Charge for the year	12,373	1,773	5,908
Amounts written off	(606)	(2,275)	(2,225)
Unused amounts reversed	(860)	(145)	(17,377)
At December 31	**15,948**	**5,041**	**5,688**

As at December 31, the aging analysis of trade and other receivables is presented below:

	Total	Neither past due nor impaired	Past due but not impaired		
			<3 months	3-6 months	>6 months
Trade receivables	66,296	30,306	15,273	6,533	14,184
Other receivables	29,910	8,497	5,656	4,385	11,372
2009	**96,206**	**38,803**	**20,929**	**10,918**	**25,556**
Trade receivables	83,980	44,334	32,318	5,123	2,205
Other receivables	18,705	6,684	8,678	1,293	2,050
2008	**102,685**	**51,018**	**40,996**	**6,416**	**4,255**
Trade receivables	51,037	28,727	19,372	2,645	293
Other receivables	22,138	17,388	2,155	1,665	930
2007	**73,175**	**46,115**	**21,527**	**4,310**	**1,223**

12. Cash and Cash Equivalents

Cash and cash equivalents consisted of the following as of December 31:

	2009	2008	2007
Cash at bank	65,660	123,433	91,902
Cash in hand	20,083	15,682	10,235
Cash in transit	18,759	26,781	82,508
Short-term deposits	8,741	8,437	12,524
Total cash and cash equivalents	**113,243**	**174,333**	**197,169**

13. Share Capital

Share Capital and Share Premium

The Company was established as the result of a reorganization of entities under control of the Parent company, RIG Restaurants Limited. The Company was established as an open joint stock company in accordance with the legislation of the Russian Federation on May 24, 2004. At that time, the Company issued 10,000,000 common shares with a par value of 247 Russian Roubles per share (8.52 US dollars per share at the exchange rate as of May 24, 2004).

13. Share Capital (continued)

On June 1, 2007, the Company issued and sold 2,030,457 new shares with a nominal value of 169.7 Russian Roubles per share to the Parent at the price of $29.55 (RUR 765.47 at exchange rate at June 1, 2007) for the total amount of $60,000 (RUR 1,554,254 at exchange rate at June 1, 2007) (refer to Note 1). The excess of cash consideration over nominal value of shares issued was recognised as share premium. On December 27, 2007, the Group bought back 146,970 shares from the Parent at a price of RUR 1,446.74 for the amount of RUR 212,628. These shares were accounted for as treasury shares. The authorized and issued share capital of the Company as of December 31, 2009, 2008 and 2007 comprised 12,030,457 shares. All issued shares were fully paid.

As of December 31, 2009, 2008 and 2007, the outstanding share capital comprised of 11,883,487 shares.

Earnings per Share

Earnings/(losses) per share were calculated by dividing the net profit/(loss) attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.

	2009	2008	2007
Net (loss)/profit attributable to equity holders of the Company	(272,031)	(377,985)	152,847
Weighted average number of ordinary shares outstanding	11,883,487	11,883,487	11,187,641
(Losses)/earnings per share attributable to equity holders of the Company, basic and diluted (Russian Roubles)	**(22.89)**	**(31.81)**	**13.66**

The Company has no potentially dilutive ordinary shares; therefore, the diluted (losses)/earnings per share equal basic (losses)/earnings per share.

14. Purchase of Non-controlling Interest in a Subsidiary

On May 12, 2009, the Group acquired 49% of the share capital and settled certain accounts payables of Rosinter Restaurants Samara CJSC, the Group's subsidiary, for cash consideration of RUR 156,200. The net assets of Rosinter Restaurants Samara were negative at the date of acquisition. The acquisition resulted in excess of the purchase price over the book value of non-controlling interest of RUR 126,347, which was recognized directly in equity.

15. Liabilities to Partners

The movements in liabilities to partners were as follows during the years ended December 31:

	2009	2008	2007
At January 1	**282,224**	**345,893**	**465,015**
Increase in amounts due to partners *(Note 27)*	18,159	64,742	181,102
Payments to partners	(66,415)	(166,216)	(383,992)
Capital contributed by partners in cash	3,607	42,557	117,247
Capital contributed by partners in PPE	–	–	21,459
Disposal of Baltic subsidiaries *(Note 24)*	–	(4,827)	(6,076)
Payments to acquire interest in subsidiaries	–	–	(42,626)
Other non-cash settlements	326	(8,593)	–
Translation difference	(311)	8,668	(6,236)
At December 31	**237,590**	**282,224**	**345,893**

15. Liabilities to Partners (continued)

Analysed as to:

	2009	2008	2007
Current portion	112,100	129,836	345,893
Long-term portion	125,490	152,388	–
Total liabilities to partners	**237,590**	**282,224**	**345,893**

16. Related Parties Disclosures

In accordance with IAS 24 *Related Party Disclosures* parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties may enter into transactions which unrelated parties might not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

Short-term loans receivable from related parties consisted of the following as of December 31:

		Short-term loans receivable from related parties			**Short-term loans payable to related parties**		
Related Parties	**Nature of relationship**	**2009**	**2008**	**2007**	**2009**	**2008**	**2007**
Rostik Investment Group Inc.(1)	Entity under common control (EUCC)	68,750	68,750	68,750	–	–	–
Hodler Finance S.A. (2)	EUCC	–	–	225,000	–	–	–
OJSC Birulevo (3)	EUCC	–	–	75,000	–	–	–
National QSR Network LLC (4)	EUCC	–	–	75,000	–	–	–
Other EUCC (5)		2,583	10,649	12,108	–	–	5,705
Total short-term loans receivable from /payable to related parties		**71,333**	**79,399**	**455,858**	**–**	**–**	**5,705**

(1) On December 24, 2007, the Group provided Rostik Investment Group Inc. with an unsecured rouble denominated loan in the total amount RUR 68,750, bearing interest of 14.00% per annum. In December 2009, the loan agreement was renewed with the same interest rate and due date of August 31, 2010.

(2) On December 10, 2007, the Group issued a rouble-denominated unsecured loan to Hodler Finance S.A. for RUR 225,000, bearing interest of 12.00% per annum and maturing on June 10, 2008. During the year ended December 31, 2008, the loan was fully repaid.

In November 2009, the Group issued two unsecured loans to Hodler Finance S.A. in the amounts of 3,000 thousand US dollars and 1,000 thousand US dollars (RUR 90,733 and RUR 30,244 at the exchange rate at December 31, 2009) bearing interest of 12.05% and 8.78% per annum, respectively, and maturing in 2012. Such loans correspond to 36.40% portion of the credit lines obtained by the Group from Raiffeisenbank and Credit Europe Bank where related parties provided real estate as supplementary collateral.

(3) On October 10, 2007, the Group issued a rouble-denominated unsecured loan to OJSC Birulevo for RUR 75,000, bearing interest of 12.00% per annum. The loan was fully repaid on January 17, 2008.

16. Related Parties Disclosures (continued)

(4) On October 3, 2007 and November 2, 2007, the Group issued two rouble-denominated unsecured loans to National QSR Network LLC for RUR 37,500 each, bearing interest of 11.00% per annum and maturing on March 31, 2008. From January 1, 2008, the interest rate was increased to 14.00%. During the year ended December 31, 2008, the loans were fully repaid.

(5) During 2009, the Group wrote off a short-term loan and interest receivable from Rosinter Restaurants OU (Estonia) in the total amount of RUR 9,771.

The interest rate for the loans given to the other EUCC varies from nil to 14.00% per annum.

Long-term loans receivable from/payable to related parties consisted of the following as of December 31:

Related Parties	Nature of relationship	Long-term loans receivable from related parties			Long-term loans payable to related parties		
		2009	**2008**	**2007**	**2009**	**2008**	**2007**
Hodler Finance S.A. (2)	EUCC	120,977	–	–	–	–	–
Rosworth Investments Limited (6)	Joint venture	22,777	8,364	–	–	–	–
Other EUCC (7)		–	17,335	9,037	24,624	23,921	25,638
Total long-term loans receivable from/ payable to related parties		**143,754**	**25,699**	**9,037**	**24,624**	**23,921**	**25,638**

(6) In 2009, Group issued additional tranches of an interest free loan to Rosworth Investments Limited maturing in 2017. The nominal amount of the loan of RUR 44,580 and RUR 17,628 as at December 31, 2009 and 2008, respectively, was discounted using a market rate of 12.00% per annum.

(7) During 2009, the Group impaired a long-term loan and interest receivable from Rosinter Restaurants GmbH (Austria) in the amount of RUR 24,168.

The interest rate for the loans received from the other EUCC varies from 1% to 13% per annum.

Long-term receivables from related party consisted of receivables from Rostik Investment Group Inc. for management and financial advisory services provided by the Group in accordance with a consultancy agreement signed in 2007. In January 2008, the Group entered into an addendum in which the parties agreed that the arrangement must be settled not later than December 31, 2011. The Group discounted the nominal amount of RUR 47,604 at the exchange rate at December 31, 2009, at a market rate of 12.00% per annum. The outstanding balance at amortised cost was RUR 37,950 and RUR 32,916 as at December 31, 2009 and 2008, respectively.

Long-term advances to related party consisted of payments to CJSC Preobrazhenie for non-controlling shares in the Group's subsidiaries in Omsk in the amount of RUR 165,430 and for non-controlling shares in the Group's subsidiaries in Samara and Omsk in the amount of RUR 156,200 and RUR 103,000.

16. Related Parties Disclosures (continued)

Short-term receivable from / payable to related parties consisted of the following as of December 31:

		Receivables from related parties			Payables to related parties		
Related Parties	**Nature of relationship**	**2009**	**2008**	**2007**	**2009**	**2008**	**2007**

Sberbank

In September 2006, the Group obtained a loan in the amount of RUR 100,000 bearing interest of 9.20% per annum and maturing in March 2008. The loan was secured by a pledge of restaurant equipment with a net book value of RUR 33,423. The loan was fully repaid on March 17, 2008.

On June 3, 2009, the Group entered into a new loan agreement with Sberbank in the amount of RUR 950,000 bearing interest of 18.50% per annum and maturing in June 2012, to cover repayments of bonds in accordance with the early redemption options. The Group has provided Sberbank with a security against this loan which consists of trade marks with a net book value of RUR 472 and pledged value of RUR 588,446, fixed assets of the regional companies with a net book value of RUR 194,954 and pledged value of RUR 550,727, more than 50% of the shares of the companies whose fixed assets have been used as collateral against this loan, 99% of the shares of Moscow company Rosinter Restaurants LLC and 25% plus 1 share of the public company Rosinter Restaurants Holding. The unutilised balance of the loan amounted to RUR 118,611 as of December 31, 2009.

Credit Europe Bank

In November 2009, the Group entered into a credit facility agreement in the amount of 6,000 thousand US dollars (RUR 181,465 at the exchange rate at December 31, 2009) bearing interest of 12.00% per annum and maturing in November 2012. The credit facility is secured by a guarantee of VAKO LLC, a related party. The debt was fully repaid in March 2010.

Bonds

In July 2003, Rosinter Restaurants LLC, a Group company, registered with the Federal Securities Market Commission in Russia the issue of 400,000 non-convertible bonds with a face value of 1,000 Russian roubles each in an aggregated principal amount of RUR 400,000. On July 7, 2004, the Group issued 330,371 of those bonds in an aggregated principal amount of RUR 330,371. The bonds have 16 coupons payable quarterly. Interest rates for each coupon vary from 10.00% to 12.00% per annum. The outstanding balance at December 31, 2007 is 144,243 bonds in the amount of RUR 144,243. On July 2, 2008, the bonds were redeemed.

17. Long-Term Debt (continued)

Bonds (continued)

In December 2005, Rosinter Restaurants LLC, a Group company, issued 1,000,000 non-convertible bonds with a face value of 1,000 roubles each in an aggregated principal amount of RUR 1,000,000. The bonds have 10 coupons payable semi-annually with variable interest rates declared by the Group. The interest rate for the two coupon periods ended May 2009 was 12.00%. The interest rate for the next two coupon periods ending May 2010 is 18.00%. During 2009, most of bondholders exercised their early redemption option. The outstanding balance at March 31, 2010, and December 31, 2009, represented 118,923 bonds in the nominal amount of RUR 118,923. The bonds will mature on November 26, 2010. The bondholders have an early redemption option exercisable in May 2010.

Raiffeisenbank

In November 2009, the Group entered into a credit facility agreement in the amount of 5,000 thousand US dollars (RUR 151,221 at the exchange rate at December 31, 2009) bearing interest of LIBOR plus 8.50% per annum and maturing in May 2012. The credit facility is secured by a guarantee of "Institut Stekla" OJSC, a related party. The unutilized balance of the credit facility amounted to RUR 99,483 as of December 31, 2009.

Titul LLC

In July 2009, the Group entered into a loan agreement in the amount of RUR 35,000 bearing interest of 15.00% per annum and maturing in July 2015. The credit facility is secured by a guarantee of RIG Restaurants Limited, the Parent. The debt was fully repaid in April 2010.

Garant Invest

In February 2009, the Group entered into a credit facility agreement in the amount of 800 thousand US dollars (RUR 24,195 at the exchange rate at December 31, 2009) bearing interest of 15.00% per annum and maturing in July 2011. In November 2009, the Group repaid the amount of RUR 3,024. The debt was fully repaid in March 2010.

Barclays (Expobank)

In July 2008, the Group assumed a liability under a credit facility through the business combination in the amount of RUR 108,000 bearing interest of 12.00% per annum and maturing in January 2010. The credit facility was fully repaid in 2009.

Ukreximbank

During 2005, the Group obtained an unsecured credit facility in the amount of RUR 34,070 bearing interest of 12.00% per annum and maturing in July 2008. The credit facility was secured by a pledge of restaurant equipment with a carrying value of RUR 16,912. The unutilized balance of the credit facility amounted to RUR 3,941 at December 31, 2007. The credit facility was fully repaid on July 31, 2008.

18. Finance Lease Liabilities

During 2009, 2008 and 2007, The Group entered into a number of finance lease agreements for motor vehicles and computer equipment. The leased assets under these agreements are included in property and equipment in the consolidated statements of financial position in the amount of RUR 17,481, RUR 27,353 and RUR 25,030 as of December 31, 2009, 2008 and 2007, respectively. Depreciation of property and equipment under the finance lease contracts for 2009, 2008 and 2007 amounted to RUR 7,677, RUR 7,655 and RUR 6,343 respectively. Finance charges for the year ended December 31, 2009, 2008 and 2007 amounted to RUR 2,157, RUR 3,977 and RUR 4,681, respectively, and are included in interest expense in the consolidated statement of income.

Future minimum lease payments together with the present value of the net minimum lease payments were as follows at December 31:

	2009		**2008**		**2007**	
	Minimum payments	**Present value of payments**	**Minimum payments**	**Present value of payments**	**Minimum payments**	**Present value of payments**
Within one year	5,009	4,363	13,096	10,873	11,843	8,909
After one year but not more than five years	388	362	4,913	4,192	9,382	8,197
Total minimum lease payment	**5,397**	**4,725**	**18,009**	**15,065**	**21,225**	**17,106**
Less amounts representing finance charges	(672)	–	(2,944)	–	(4,119)	–
Present value of minimum lease payments	**4,725**	**4,725**	**15,065**	**15,065**	**17,106**	**17,106**

In the year ended December 31, 2009, the interest rate varied from 9.28% to 11.83%. In the year ended December 31, 2008, the interest rate varied from 9.28% to 24.00%. In the year ended December 31, 2007, the interest rate varied from 9.28% to 12.78%.

19. Income Tax

The Group's provision for income tax for the years ended December 31 is as follows:

	2009	**2008**	**2007**
Current tax	(158,649)	(125,501)	(119,786)
Deferred tax	(43,982)	52,770	11,547
Total income tax expense	**(202,631)**	**(72,731)**	**(108,239)**

Deferred taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes.

19. Income Tax (continued)

The tax effect of the temporary differences that give rise to the deferred tax assets and liabilities were as follows as of December 31, 2009:

	December 31, 2008	Differences recognition and reversal	Translation difference	December 31, 2009
Tax effect of deductible temporary differences				
Trade and other payables	40,558	(2,338)	(146)	38,074
Allowance for impairment of receivables and inventory	7,326	813	(27)	8,112
Carryforward of unused tax losses	79,139	(46,113)	(250)	32,776
Other	233	2,484	–	2,717
Total deferred tax asset:	**127,256**	**(45,154)**	**(423)**	**81,679**
Tax effect of taxable temporary differences				
Property and equipment	(70,568)	4,251	655	(65,662)
Trade and other receivables	(993)	(303)	–	(1,296)
Other	(8,497)	(2,776)	–	(11,273)
Total deferred tax liability:	**(80,058)**	**1,172**	**655**	**(78,231)**
Net deferred tax asset / (liability)	**47,198**	**(43,982)**	**232**	**3,448**

The tax effect of the temporary differences that give rise to the deferred tax assets and liabilities were as follows as of December 31, 2008:

	December 31, 2007	Differences recognition and reversal	Effect of tax rate reduction	Deferred tax acquired in business combination	Translation difference	December 31, 2008
Tax effect of deductible temporary differences						
Trade and other payables	68,268	(19,683)	(8,112)	–	85	40,558
Allowance for impairment of receivables and inventory	8,972	(653)	(1,465)	–	472	7,326
Carryforward of unused tax losses	13,530	85,395	(15,835)	–	(3,951)	79,139
Other	4,542	(4,263)	(46)	–	–	233
Total deferred tax asset:	**95,312**	**60,796**	**(25,458)**	**–**	**(3,394)**	**127,256**
Tax effect of taxable temporary differences						
Property and equipment	(30,532)	3,446	14,112	(60,025)	2,431	(70,568)
Trade and other receivables	(7,777)	6,585	199	–	–	(993)
Other	(521)	(8,610)	1,700	(1,066)	–	(8,497)
Total deferred tax liability:	**(38,830)**	**1,421**	**16,011**	**(61,091)**	**2,431**	**(80,058)**
Net deferred tax asset / (liability)	**56,482**	**62,217**	**(9,447)**	**(61,091)**	**(963)**	**47,198**

19. Income Tax (continued)

The tax effect of the temporary differences that give rise to the deferred tax assets and liabilities were as follows as of December 31, 2007:

	December 31, 2006	Differences recognition and reversal	Deferred tax acquired in business combination	Translation difference	December 31, 2007
Tax effect of deductible temporary differences					
Trade and other payables	59,921	8,945	–	(598)	68,268
Allowance for impairment of receivables and inventory	10,910	(1,278)	(368)	(292)	8,972
Carryforward of unused tax losses	7,566	5,964	–	–	13,530
Other	19,800	(13,375)	(783)	(1,100)	4,542
Total deferred tax asset:	**98,197**	**256**	**(1,151)**	**(1,990)**	**95,312**
Tax effect of taxable temporary differences					
Property and equipment	(37,267)	5,666	–	1,069	(30,532)
Trade and other receivables	(3,502)	(5,894)	–	1,619	(7,777)
Other	(12,981)	12,670	–	(210)	(521)
Total deferred tax liability:	**(53,750)**	**12,442**	**–**	**2,478**	**(38,830)**
Net deferred tax asset / (liability)	**44,447**	**12,698**	**(1,151)**	**488**	**56,482**

The recognition and reversal of temporary differences, as presented in the tables above, primarily relates to the depreciation of property and equipment in excess of the depreciation for tax purposes, accrued liabilities, tax losses available for carry forward and provisions to write inventory down to net realizable value.

The temporary differences associated with investments in subsidiaries for which a deferred tax liability has not been recognized aggregate to RUR 17,179, RUR 26,472 and RUR 81,028 as of December 31, 2009, 2008 and 2007, respectively. At December 31, 2009, 2008 and 2007, the Group recognized a deferred tax liability for the temporary differences associated with profit distribution in the amount of RUR 3,592, RUR 11,131 and nil respectively.

As of December 31, 2009, 2008 and 2007, several Company's subsidiaries had accumulated tax losses in the amount of RUR 163,880, RUR 395,695 and RUR 56,375, for which a deferred tax asset of RUR 32,776, RUR 79,139 and RUR 13,530, respectively, was recognized. Management expects that these tax losses will be used against future taxable income. This deferred tax asset may be utilized within 8-10 years.

As of December 31, 2009 and 2008, several Company's subsidiaries had tax losses in the amount of RUR 228,041 and RUR 185,096, respectively, that are available indefinitely for offset against future taxable profits of the companies in which the losses arose. However, these losses relate to subsidiaries that have a history of losses, do not expire and may not be used to offset taxable income elsewhere in the Group. Deferred tax assets have not been recognised in respect of these losses as they may not be used to offset taxable profits elsewhere in the Group and they have arisen in subsidiaries that have been loss-making for some time. The subsidiary has no taxable temporary differences or any tax planning opportunities available that could partly support the recognition of these losses as deferred tax assets. If the Group was able to recognise all unrecognised deferred tax assets profit would increase by RUR 45,608.

The statutory tax rate effective in the Russian Federation, the location of the majority of the Group's entities, was 24% in 2008 and 2007. The statutory tax rate was reduced to 20% in 2009. Deferred tax assets and liabilities at December 31, 2008, were calculated using 20% tax rate. The taxation charge for the year is different from that which would be obtained by applying the statutory income tax rate to the net profit before income tax.

19. Income Tax (continued)

Below is a reconciliation of theoretical income tax at statutory income tax rates to the actual expense recorded in the Group's income statement:

	2009	2008	2007
Profit/Loss before income tax	(75,647)	(305,503)	261,086
At Russian statutory income tax rate	15,129	73,321	(62,660)
Effect of differences in tax rates in countries other than the Russian Federation	7,026	60,184	47,523
Adjustment in respect of income tax of previous years	18,137	10,108	–
Tax on dividend income related to dividend declared by subsidiaries	(27,190)	(30,168)	(38,228)
Loss subject to unified tax on imputed income	(12,589)	(18,817)	28,087
Reduction in deferred taxes closing balance resulting from reduction in tax rate	–	(9,448)	–
Deferred tax benefit/(expense) recognised for profit distribution	7,539	(11,131)	–
Effect of non-deductible expenses	(99,302)	(102,628)	(38,642)
Effect of tax losses for which deferred tax assets were not recognised and other non-temporary differences	(111,381)	(44,153)	(44,319)
Income tax expense reported in the consolidated income statement	**(202,631)**	**(72,731)**	**(108,239)**

20. Trade and Other Payables

Trade and other payables consisted of the following as of December 31:

	2009	2008	2007
Trade creditors	547,714	399,437	302,754
Output VAT and other taxes payable	318,257	212,590	79,427
Accrued salaries	263,615	203,066	233,078
Advances received	52,748	46,908	59,949
Interest payable to banks	8,939	14,076	9,365
Other liabilities	222,486	196,408	137,877
Total trade and other payables	**1,413,759**	**1,072,485**	**822,450**

21. Short-Term Debt

Short-term debt consisted of the following as of December 31:

	2009	2008	2007
Sberbank	450,000	549,960	92,700
MDM Bank	189,026	220,353	–

Alfa Bank	120,000	–	–
Credit Bank of Moscow	43,859	–	–
Amsterdam TB	–	246,795	–
Credit Europe Bank	–	146,902	–
UniCredit	–	–	37,000
Other	–	2,985	–
	954,106	**1,313,897**	**129,700**
Current portion of long-term loans *(Note 17)*	214,813	1,007,540	1,268,563
Total short-term debt	**1,168,919**	**2,321,437**	**1,398,263**

21. Short-Term Debt (continued)

Sberbank

In December 2005, the Group entered into a revolving credit facility agreement in the total amount of RUR 155,000, bearing interest of 12.00% per annum and maturing in December 2006. In December 2007, the Group renewed the revolving credit facility agreement for the amount of RUR 190,000, bearing interest of 9.0% per annum and maturing in January 2008. To secure the debt, the Group pledged its restaurant and office equipment and furniture with a carrying value of RUR 45,140. The unutilized balance of the credit facility amounted to RUR 97,300 at December 31, 2007. The credit facility was fully repaid on January 10, 2008.

In 2008, the Group entered into a number of credit facility agreements within the limit of the General Agreement in the total amount of RUR 450,000 bearing interest of 12.25% per annum and maturing from February to May 2009. During 2009, the credit facility agreements were renewed within the same limit bearing interest from 16.25% to 17.75% per annum and maturing from February to May 2010. In April 2010, the credit facility agreements were renewed within the same limit bearing interest from 10.75% to 11.50% per annum and maturing in February 2011.The credit facilities are secured by a pledge of restaurant equipment in Moscow with a carrying value of RUR 263,880. The credit facilities were fully utilised at December 31, 2009 and 2008.

In April 2008, the Group entered into a credit facility agreement in the amount of RUR 100,000 bearing interest of 12.75% per annum and maturing in October 2009. The credit facility was fully repaid in 2009.

MDM Bank

In September 2008, the Group entered into an unsecured loan agreement in the amount of 7,500 thousand US dollars (RUR 220,353 at the exchange rate at December 31, 2008) bearing interest of 13.50% per annum and maturing in March 2009. In June 2009, the Group renewed the loan agreement for the amount of 6,500 thousand US dollars (RUR 196,587 at the exchange rate at December 31, 2009) bearing interest of 16.00% per annum and maturing in December 2010. In March 2010, the debt was fully repaid.

BSGV

In July 2008, the Group entered into a revolving credit facility agreement in the amount of 5,000 thousand US dollars (RUR 146,902 at the exchange rate at December 31, 2008) bearing interest from 6.80% to 8.00% per annum and maturing in January 2010. The credit facility was fully utilised at December 31, 2009 and 2008. In 2010, the credit facility agreement was renewed within the same limit bearing interest of 6.40% per annum and maturing in October 2010.

Alfa Bank

In December 2009, the Group entered into a revolving credit facility agreement in the amount of RUR 120,000 bearing interest of 14.35% per annum and maturing in June 2010. The credit facility was fully utilised at December 31, 2009. The debt was fully repaid in April 2010.

Credit Bank of Moscow

In 2009, the Group entered into a number of loan agreements in the total amount of RUR 91,000 bearing interest of 20.00% per annum and maturing in 2010. In 2009, the Group partially repaid the debt. In 2010, the debt was fully repaid.

21. Short-Term Debt (continued)

Amsterdam TB

In August 2006, the Group entered into a credit facility agreement amounting to 4,000 thousand US dollars (RUR 117,522 at the exchange rate at December 31, 2008) bearing interest of LIBOR plus 3.70% per annum and maturing in August 2009. The loan agreement contained covenants which limit the indebtedness of Rosinter Restaurants LLC, a Group entity. In July 2008, the credit facility was renewed with the amount of 8,400 thousand US dollars (RUR 246,795 at the exchange rate at December 31, 2008), interest rate of 10.00% per annum and due date of July 16, 2009. In 2009, the debt was fully repaid.

Credit Europe Bank

In March 2008, the Group entered into a revolving credit facility agreement in the amount of 5,000 thousand US dollars (RUR 146,902 at the exchange rate at December 31, 2008) bearing interest of 9.00% per annum and maturing in September 2008. In September 2008, the credit facility was renewed with the interest rate of 14.00% and due date of March 31, 2009. The debt was fully repaid in March 2009.

UniCredit Bank (International Moscow Bank)

In May 2007, the Group obtained a credit facility in the amount of RUR 130,000 bearing interest from 9.50% to 12.00% per annum and maturing in November 2008. The loan is secured by a pledge of restaurant equipment with a net book value of RUR 51,499. The unutilized balance of the credit facility amounted to RUR 93,000 as of December 31, 2007.

22. Revenue

Revenue for the years ended December 31 consisted of the following

	2009	2008	2007
Revenue from restaurants	7,588,439	7,509,711	6,066,571
Revenue from canteens	265,309	303,393	167,442
Franchise revenue	190,691	216,931	150,163
Sublease services and other services	161,897	130,948	104,436
Sales of semi-finished products to franchisees	81,265	99,021	121,841
Other services	52,495	101,103	124,248
Total revenue	**8,340,096**	**8,361,107**	**6,734,701**

23. Cost of Sales

The following expenses were included in cost of sales for the years ended December 31:

	2009	2008	2007
Food and beverages	1,919,446	2,047,923	1,810,982
Payroll and related taxes	1,707,755	1,725,570	1,341,090
Rent	1,313,740	1,011,302	743,443
Restaurant equipment depreciation	337,681	253,215	179,243
Utilities	283,906	214,116	167,917
Laundry and sanitary control	124,061	117,470	75,461
Materials	118,451	150,170	115,869
Maintenance and repair services	103,392	113,729	86,217
Other services	91,648	114,637	60,782
Franchising fee	50,268	43,332	43,483
Transportation services	44,700	61,042	41,875
Other expenses	22,681	41,013	76,667
Total cost of sales	**6,117,729**	**5,893,519**	**4,743,029**

24. Selling, General and Administrative Expenses

The following expenses were included in selling, general and administrative expenses for the years ended December 31:

	2009	2008	2007
Payroll and related taxes	761,595	786,002	617,300
Rent	219,440	170,218	130,262
Advertising	153,680	258,830	230,970
Other services	89,180	110,133	48,477
Depreciation and amortization	65,333	65,446	55,726
Financial and legal services	44,603	46,198	40,829
Bank services	33,609	27,567	19,519
Utilities	30,056	31,305	21,110
Transportation services	24,414	6,533	5,653
Materials	23,698	31,549	18,569
Maintenance and repair services	22,945	21,905	18,534
Laundry and sanitary control	17,795	23,086	7,973
Other expenses	110,915	109,457	60,006
Total selling, general and administrative expenses	**1,597,263**	**1,688,229**	**1,274,928**

25. Rent Expenses

The following rent expenses were included in cost of sales and selling, general and administrative expenses for the years ended December 31:

	2009	2008	2007
Rent premises minimum lease payment	1,488,446	1,106,634	831,967
Rent premises contingent lease payment	44,734	74,886	41,738
Total rent expenses	**1,533,180**	**1,181,520**	**873,705**

26. Other Gains/Losses

Gains and losses for the years ended December 31 consisted of the following:

	2009	2008	2007
Gain on disposal of investment in subsidiary	–	–	26,057
Other gains	32,104	50,391	108,774
Total other gains	**32,104**	**50,391**	**134,831**
Loss on disposal of non-current assets	96,184	73,513	42,439
Other losses	92,245	109,893	119,681
Total other losses	**188,429**	**183,406**	**162,120**

Other gains primarily related to insurance claims, accounts payable balances write off and other miscellaneous gains.

Other losses mainly resulted from the closure of certain restaurants and other one-off expenses.

27. Financial Income/Expenses

The following income/expenses were included in financial income/expenses for the years ended December 31:

	2009	2008	2007
Interest income	21,233	39,446	35,542
Total financial income	**21,233**	**39,446**	**35,542**

	2009	2008	2007
Interest expense	336,919	241,663	173,587
Increase in amounts due to partners *(Note 15)*	18,159	64,742	181,102
Total financial expenses	**355,078**	**306,405**	**354,689**

28. Losses from impairment of assets

Losses from impairment of assets for the years ended December 31 consisted of the following:

	2009	2008	2007
Loss from impairment of property and equipment *(Note 7)*	29,016	90,724	–
Loss from impairment of intangible assets *(Note 6)*	13,419	50,127	–
Loss from impairment of goodwill *(Note 5)*	–	11,225	–
Total losses from impairment of assets	**42,435**	**152,076**	**–**

29. Commitments and Contingencies

Operating Environment

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. The global financial crisis has resulted in a decline in the gross domestic product, capital markets instability, significant deterioration of liquidity in the banking sector, and tighter credit conditions within Russia. While the Russian Government has introduced a range of stabilization measures aimed at providing liquidity to Russian banks and companies, there continues to be uncertainty regarding the access to capital and cost of capital for the Group and its counterparties, which could affect the Group's financial position, results of operations and business prospects.

While management believes it is taking appropriate measures to support the sustainability of the Group's business in the current circumstances, unexpected further deterioration in the areas described above could negatively affect the Group's results and financial position in a manner not currently determinable.

Litigation

The Group has been and continues to be the subject of legal proceedings and adjudications from time to time, none of which has had, individually or in the aggregate, a material adverse impact on the Group. Management believes that the resolution of all business matters will not have a material impact on the Group's financial position or operating results.

29. Commitments and Contingencies (continued)

Russian Federation Tax and Regulatory Environment

The government of the Russian Federation continues to reform the business and commercial infrastructure in its transition to a market economy. Russian tax and currency legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant regional and federal authorities. Recent events within the Russian Federation suggest that the tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments and, as a result, it is possible that transactions and activities that have not been challenged in the past may now be challenged. As such, additional taxes, fines, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances, reviews may cover longer periods. However, the tax regime in Russia following the recent cases has become even less predictable.

The Group utilised certain tax planning strategies providing tax savings to the Group that reduced its costs of operations in 2006 (refer to Note 4 - Estimation Uncertainty). Management have substantially eliminated these tax planning strategies with effect from December 31, 2006. While management believes that its interpretation of the relevant legislation is appropriate, these tax planning strategies may be challenged by the Russian tax authorities. Thus, the ultimate amount of taxes, penalties and interest assessed, if any, may be in excess of the amount expensed to date and accrued as of December 31, 2007. The amount of possible liabilities that could be incurred in the event that the tax authorities challenge the Group's position on certain tax matters and certain tax practices at December 31, 2007 could include the amount of the aforementioned tax savings, and fines, penalties and interest assessed, if any. As of December 31, 2009 management believes that its interpretation of the relevant legislation is appropriate and that it is likely that the Group's tax position will be sustained.

Operating Lease Commitments

The Group has entered into a number of commercial lease agreements for its restaurants' premises. The nominal amount of minimum rental payables under the non-cancellable leases at December 31 was as follows:

	2009	2008	2007
Within one year	1,206,527	1,169,572	679,942
After one year but not more than five years	2,973,410	3,297,522	2,097,956
More than five years	1,039,328	1,246,548	1,014,442
Total minimum rental payables:	**5,219,265**	**5,713,642**	**3,792,340**

30. Financial Risk Management Objectives and Policies

Financial instruments carried on the statement of financial position comprise loans given, finance lease liabilities, trade and other payables, bank loans, bonds and liabilities to partners. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various financial assets such as trade and other receivables and cash and short-term deposits, which arise directly from its operations.

Management of risk is an essential element of the Group's operations. The main risks inherent to the Group's operations include those related to market movements in interest rates, foreign exchange rates, credit risk and liquidity risk. The Group's risk management policies in relation to these risks are summarized below.

Interest Rate Risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Trade and other receivables and payables are non-interest bearing financial assets and liabilities. The borrowings are usually exposed to interest rate risk through market value fluctuations of interest-bearing long-term credit facilities. The majority of interest rates on long-term credit facilities of the Group are fixed and these are disclosed in Note 17.

30. Financial Risk Management Objectives and Policies (continued)

Interest Rate Risk (continued)

The Group has no significant exposure to interest rate risk since the majority of its loans and bonds have a clearly defined stable interest rate, other than short-term credit facilities which expose the Group to the risk of refinancing at different interest rates (refer to Note 21). The Group does not hedge its interest rate risk.

Foreign Currency Risk

Foreign currency risk is the risk that fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group's exposure to currency risk primarily related to its US dollar denominated intercompany balances and external debts of its Russian subsidiaries.

The Group monitors the currency risk by following changes in exchange rates in currencies in which its intercompany balances and external debts are denominated. The Group does not have formal arrangements to mitigate its currency risk.

The Group has no significant exposure to foreign currency risk since the majority of its US dollar denominated loans are short-term credit facilities (refer to Notes 17, 21). The Group does not hedge its foreign currency risk.

The table below shows the sensitivity to a reasonably possible change in the US dollar exchange rate, with all other variables held constant, of the Group's profit before tax:

As at 31 December 2009	Increase/(decrease) of local currency to US dollar	Effect on profit before tax – gain /(loss)
US dollar/Russian Rouble	14.8%	(17,035)
US dollar/Russian Rouble	(14.8%)	17,035
US dollar/Kazakhstani Tenge	19.5%	15,291
US dollar/Kazakhstani Tenge	(19.5%)	(15,291)
US dollar/Ukrainian Hryvnia	31.3%	27,567
US dollar/ Ukrainian Hryvnia	(31.3%)	(27,567)
Russian rouble/Ukrainian Hryvnia	33.3%	8,089
Russian rouble/Ukrainian Hryvnia	(33.3%)	(8,089)

As at 31 December 2008	Increase/(decrease) of local currency to US dollar	Effect on profit before tax – gain /(loss)
US dollar/Russian Rouble	(13.8%)	(5,891)
US dollar/Russian Rouble	(31.8%)	(13,571)
US dollar/Kazakhstani Tenge	(16.8%)	(11,433)
US dollar/Kazakhstani Tenge	(29.8%)	(20,282)
US dollar/Ukrainian Hryvnia	33.8%	43,099
US dollar/ Ukrainian Hryvnia	(33.8%)	(43,099)

As at 31 December 2007	Increase/(decrease) of local currency to US dollar	Effect on profit before tax – gain /(loss)
US dollar/Russian Rouble	7.0%	(1,301)
US dollar/Russian Rouble	(7.0%)	1,301

30. Financial Risk Management Objectives and Policies (continued)

Credit Risk

The Group is not significantly exposed to credit risk as the majority of its sales are on a cash basis. The Group's credit risk is primarily attributed to loans due from related parties and receivables. The carrying amount of loans due from related parties and receivables, net of allowance for impairment, represents the maximum amount exposed to credit risk. Management believes that there is no significant risk of loss to the Group beyond the allowance already recorded.

The Group deposits available cash with several Russian banks. Deposit insurance is not offered to banks operating in Russia. To manage the credit risk, the Group allocates its available cash to a variety of Russian banks and management periodically reviews the credit worthiness of the banks in which such deposits are held.

Liquidity Risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of financial assets and projected cash flows from operations.

The tables below summarize the maturity profile of the Group's financial liabilities, including principal amounts and interests according to contractual terms, at December 31, 2009, 2008 and 2007 based on contractual undiscounted payments.

December 31, 2009	Less than 3 months	3-12 months	1 to 5 years	Total
Long-term and short-term debt	514,000	917,911	1,272,888	**2,704,799**
Long-term and short-term debt due to related parties	–	2,964	30,547	**33,511**
Trade and other payables and income tax payable	1,445,662	50,689	–	**1,496,351**
Payables to related parties	42,970	333	1,391	**44,694**
Liabilities to partners	–	112,100	125,490	**237,590**
Finance leases	1,603	3,418	393	**5,414**
Total	**2,004,235**	**1,087,415**	**1,430,709**	**4,522,359**

December 31, 2008	Less than 3 months	3-12 months	1 to 5 years	Total
Long-term and short-term debt	629,710	1,980,092	217,826	**2,827,628**
Long-term and short-term debt due to related parties	–	2,879	35,403	**38,282**
Trade and other payables and income tax payable	1,107,414	1,880	–	**1,109,294**
Payables to related parties	54,942	2,233	–	**57,175**
Liabilities to partners	–	127,452	154,772	**282,224**
Finance leases	3,849	9,196	4,936	**17,981**
Total	**1,795,915**	**2,123,732**	**412,937**	**4,332,584**

December 31, 2007	Less than 3 months	3-12 months	1 to 5 years	Total
Long-term and short-term debt	192,884	1,205,439	324,869	**1,723,192**
Long-term and short-term debt due to related parties	–	5,719	25,675	**31,394**
Trade and other payables and income tax payable	855,971	1,301	–	**857,272**
Payables to related parties	–	69,387	–	**69,387**
Liabilities to partners	–	345,893	–	**345,893**
Finance leases	3,175	8,659	9,389	**21,223**
Total	**1,052,030**	**1,636,398**	**359,933**	**3,048,361**

30. Financial Risk Management Objectives and Policies (continued)

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

No changes were made in the objectives, policies or processes during the years ended December 31, 2009, 2008 and 2007.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using primarily a leverage ratio, which is net debt divided by EBITDA. The Group's policy is to keep the leverage ratio well below the covenant ratios specified in its debt facility agreements. The Group includes within net debt loans and other forms of borrowings, including finance leases, less cash and short-term deposits.

Fair Value of Financial Instruments

Fair values of cash and cash equivalents, receivables, trade and other payables and short-term debts approximate their carrying amounts due to their short maturity. The fair value of long-term financial instruments denominated in Russian Roubles has been calculated by discounting the expected future cash flows at interest rates of 16% in 2009 and 17% in 2008 and 2007. The fair value of long-term financial instruments denominated in US dollars has been calculated by discounting the expected future cash flows at interest rate of 12% in 2009, 2008 and 2007:

	Carrying amount			Fair value		
	2009	2008	2007	2009	2008	2007
Assets measured at fair value						
Long-term loans due from related parties	143,754	25,699	9,037	145,081	25,297	9,033
Long-term receivables due from related parties	37,950	32,916	–	37,950	32,916	–
Liabilities measured at fair value						
Long-term debt	1,031,224	108,350	6,840	1,054,081	102,978	6,840
Long-term debt due to related parties	24,624	23,921	25,638	24,624	23,921	25,638
Current portion of long-term debt	214,813	1,007,540	1,268,563	214,813	1,002,518	1,268,769

31. Subsequent Events

On February 17, 2010, the Group announced a secondary offering (the "Offering") of the Company's ordinary shares to be completed in two steps.

In the first step of the offering, RIG Restaurants Limited, the Parent, placed 2,619,048 shares of the Company at $10.5 (RUR 316.23 at the exchange rate at February 17, 2010) per share for a total offer size of RUR 828,234, before fees and expenses. The Parent will use all of its net proceeds from the Offering to subscribe and pay for new shares of the Company. In March 2010, the Group received from the Parent a bridge loan in the amount of RUR 784,224 bearing interest of 14.10% per annum and maturing in March 2011.

31. Subsequent Events (continued)

The second step of the Offering is an open subscription under Russian Law for up to 4,274,877 new shares at an offer price of $10.5 per share which was approved on April 1, 2010 by the General Meeting of Shareholder and has been submitted on April 12, 2010 to Federal Service for Financial Markets (FSFM) for approval. Assuming all of the new shares offered in the open subscription are issued, the new shares will represent approximately 26.2% of the Company's enlarged share capital.

On March 9, 2010, during the first step of the secondary offering the Group bought back 400,000 shares from the Parent at a price of $10.5 (RUR 313.28 at the exchange rate at March 9, 2010) for the amount of RUR 125,314. These shares will be accounted for as treasury shares and will be used to hedge future share-based compensation programmes for management.
